Hey Team @ManicTrade,

This is my submission for the Richard (The Goat) Fanart Bounty.
Submission thread: https://x.com/MikiyasP96766/status/2040525248466968739
I created a fun story-driven fanart where Richard meets a hopeless trader (My character) in the park, teaches him momentum trading using the kids on swings analogy, and invites him to the Manic Trading Park.
Richard stays fully consistent as the confident, fast, golden racer mascot who wants traders to win — not just hype.

Honest feedback & feature ideas:

- Add lighter charts + longer timeframes
- Simple beginner tutorials
- Stronger risk management tools
- More team transparency

Put a lot of effort into the story, panels, and research. Hope you enjoy it.
