

Shutdown Line 5

Line 5 is America's most dangerous pipeline. Michigan leaders can still act to deny Enbridge's permit and speed our transition to clean energy. Line 5 should be shut down, not extended. Governor Whitmer and EGLE Director Roos need to hear from people like you who care for our water and communities.

Phone Script to Call Gov. Whitmer

1-888-676-3967

My name is _____, and I'm calling today to urge Governor Whitmer to protect our water by directing the Department of Environment, Great Lakes, and Energy (EGLE) to deny the permit for Enbridge's proposed Line 5 tunnel under the Straits of Mackinac.

The Line 5 pipeline is an imminent threat, and building a tunnel to house it is no solution. Construction would destroy wetlands, disrupt aquatic habitats, and perpetuate our reliance on fossil fuels during a critical time for climate action. Worse, the tunnel poses risks of explosion from methane, shifting financial liability to Michigan taxpayers for 99 years.

I urge Governor Whitmer to ensure that Michigan prioritizes water quality, ecosystem health, and a sustainable future by rejecting Enbridge's tunnel scheme.

Phone Script to Call Director Roos

517-284-6700
