Nevada Current

... Game species in Nevada can range in population numbers from mountain goats and bears (300-400) to mountain lions (1,400), bighorn sheep (12,000), elk (17,000), pronghorn (29,000) and *mule deer* (93,000)...

[Nevada's disappearing deer](#) September 17, 2021 Elko Daily Free Press

... In Nevada, deer populations reached their peak around 1988, when there may have been more than 250,000 statewide. Now the statewide deer population may be around 90,000... mule deer populations ... throughout the state, as well as much of the West, have been declining," Tom Donham, eastern region game division supervisor ..
