- Most registration errors will self resolve in 24 - 48 hours. The exception to this is if you have an active hold on your account. The most common holds are due to unpaid balance with the cashier and a hold regarding missing transcripts from the admissions office. You could also be a provisionally admitted student and holds of that nature will take longer to come off.
- Courses that are full in the first 1 - 2 weeks of registration will get an additional section added 99% of the time. However, it can take 24 - 48 hours for the additional course to be added.
- **IF YOU ARE TAKING BA 6000 during your 1st session in the MBA program** you will also be auto enrolled in MGMT 6100 during your 2nd 7 week term. We will attempt to do this before registration opens for students but ask for patience. **Until I have added you to this course you are going to hit errors with registration.** Again, I am working fast but it does take time.
