"Minors have the right to own assets."

- Reformatted 13th Amendment.
- Updated National Address to include not just the date it was published but the month it's covering as well, also added population count, treasury, and file count to be in the document.

- New Oath

"Oath Of Truth:

Do the order salute, put the hand behind your back on top of the constitution, then say, "I swear by my life, my family, this nation, and all I love, that I will tell the truth, the whole truth, and nothing but the truth. Affirmation: I solemnly, sincerely and truly declare and affirm that I will tell the truth, the whole truth, and nothing but the truth."

- Revision of an old war policy,

"The Righteous Bell:

The New World Order will not stand by while any regime, nation, or group commits, causes, or possesses:

Slavery, genocide, rights violations deemed critical by T.N.W.O., or mass extermination/imprisonment against its own people or any people.

Chaos, disruption, and disorder.

The people are suffering, the government is failing, or a major crisis is in effect.

In such cases, we reserve the right to declare war, liberate the oppressed, instill order and freedom, and dismantle the offending government."

 - "The Civil Court:
 - The Civil Court handles all non-criminal legal disputes, resolving conflicts between individuals, groups, organizations, or government entities without involving criminal charges.
 - The Civil Court is designed to deliver fair judgment, protect rights, and ensure peaceful resolution of disagreements through lawful, structured means."

- New Article 3 Addition

"Judicial Review:

The courts can evaluate the actions of the legislative, executive, and administrative branches of government to determine their legality, particularly their constitutionality. If a court finds an action or law to be in violation of the constitution or ideals of life, liberty, equality, and order, it can declare that action or law null and void."

- New Clause:

"The Elastic Clause:

Congress shall have the power to create all laws, policies, and regulations necessary and proper for carrying into execution the powers granted by this Constitution, and for addressing matters essential to the stability, order, and function of the nation, provided such actions do not violate any rights or the ideals of life, liberty, equality, and order.

Changing the provisions within this constitution is different from others, as our amendments are categories of different aspects in the nation.

You may have noticed different parts of the constitution labeled, pre-amble, the articles, section one, and section two. They're in order of importance and impact.

With that said, the following procedures outline how amendments may be altered, expanded, removed, or refined:

Removing an amendment in its entirety requires 9/10 majority of congress and supreme court approval.

The Pre-Amble may never be changed

The Articles require a 4/5 majority of congress and supreme court approval. Article one cannot be changed.

Section One requires a 3/4 majority of congress. Amendment Three requires a 4/5 majority of congress and supreme court approval. Amendment Four requires a 2/3 majority.

Section Two requires a 2/3 majority of Congress."

- Article six was moved to become article seven, and in its place article six now details the royal family along with its newly discovered family crest.

I pray for the guardsmen family, and I pray that justice and death comes to the vile hearted less than the human man who did this. We will make a renewed effort to combat crime like the Guardian Angels do.
- For the community center, New Third District, this district is for the untrustworthy, rule breakers, more long term timeouts, and temporary holding for new joins to reduce potential risk impact before transferring them to first or second district.
