3) REACTIVATE ACCEPT BLUE INVOICE - YOU CAN REACTIVATE THE CANCELED INVOICE ANYTIME

6.1 Button: Send Accept Blue Invoice

This button is used for creating the Accept Blue invoice and sending the invoice to your customers through email to collect payments from them. Customers can click on the URL, which opens the invoice page, and complete the payment using any of the available payment methods. Once a customer paid through invoice link, the status of the payment will be updated back into the Zoho CRM.

6.2 Button: Reactivate Accept Blue Invoice

This button is used to reactivate the canceled invoice request.

6.3 Button: Cancel Accept Blue Invoice

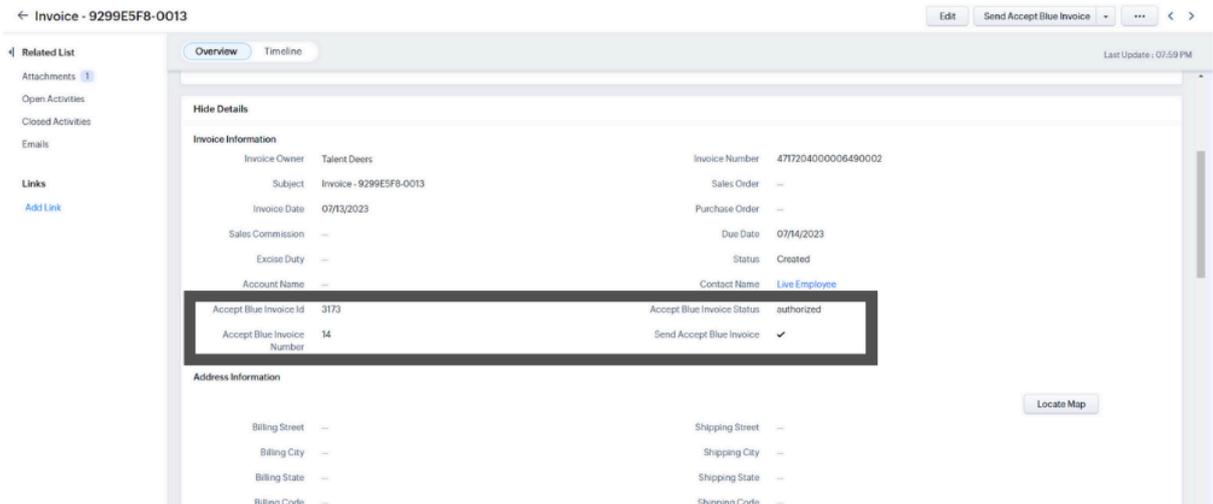

You can cancel the sent invoice to the customer any time from Zoho CRM. We can not cancel the Payment Request if the payment is already paid.

6.4 Custom Fields: Deals & Invoice Module

In the invoice module, we have added the following 4 fields (Accept Blue Invoice Id, Invoice Number, Accept Blue Invoice Status and Send Accept Blue Invoice Checkbox). After Sending the invoice to the customer, the invoice id, invoice number, and status (sent) were captured in the Invoice module. Once paid from the customer, then the Payment Status is automatically changed to the "paid" or "authorized".
