

You and AI: Artificial Intelligence in Education

K-5 | 6-12 | K-12

Artificial Intelligence has the power to transform education. But too often, teachers are left wondering how they can capitalize on its potential, while mitigating its risks. In this engaging and practical session, teachers explore simple, powerful AI tools. Then, they'll learn how educators around the country are putting these tools to use in innovative ways to move the needle on education. Participants will leave with a deeper understanding and appreciation of the possibilities of AI—and with a plan for how they can put it to work for them right away!

Learning Objectives

- Learn what AI is and how it is impacting education.
- Explore when—and when not—to integrate AI into the classroom.
- Discover simple, powerful tools that any educator can use.
- Explore innovative ways in which educators are putting AI to use.
- Develop a practical plan for integrating AI into the classroom.
