

Turn Back Time! Animated MAP Call

Rules:

~
Hello! Thanks for checking this out! This Multi-Animator-Project will be a "Cartoon Introduction" type of theme! Examples here > [Intro Examples!](#) Basically this will act as a sort of intro to his series :D **from these clips you don't even need to animate an episode, it could showcase characters, or literally be Karl running dramatically etc. A lot to work with!**

~You have one **month!** This also includes a series of one week **extensions** depending on work finished!
(That means I'm expecting some quality yall :>)

~Please provide a Sendspace link or email your part to Kutahti@gmail.com, if you can't do those then please tell me. I won't use your part if you can't send it to me

~Use 1920x1080 for your canvas size!
~

Follow Karls design below! And for everyone else you can use a tinge of creative freedom as long as it's still close to the skins they use in episodes!
~

~**CODEWORD:** Say that you will either sign up for sendspace or email me the part, and also mention what you plan to do with your part in the comments!
~

~Ask for multiple parts if possible, it raises your chances of snagging one!
~

You can do **AMV or PMV** :D Fully colored drawing with backgrounds please, and if you need help tweening ask a backup or me!
~

~No program watermarks, if you have em maybe we can work a way to edit them out!

JOIN THE DISCORD! You also don't have to be an animator to join!

<https://discord.gg/aYxQ3WJ> Say you're in my map and I'll give you a role!

(Also I prefer most experienced animators in the front. So if you are unsure of your abilities ask for a part near the end/middle)

Episodes you can choose from to do! Or not!

Different aspects of the same episode can be chosen, for example two people may do "The Masquerade." One focusing on the egg at the end and the other doing something besides that! ALSO, fan theories are allowed! Just ask before applying it!

Part 1/Intro

Taken by: Henki

Another crazy journey

Another chance to go and change the past

But I know how the story will go

This is the intro bit, so have it pretty slow paced and chill, him knowing that he might time travel, he his journal

Part 2

Taken by:

'Cause all these legends I carry with me
All these lifetimes that only I see

Part 3

Taken by:

I'm taken to this place in between
Where I've been where I'll be

Show the inbetween, him looking around confused (You can show him maybe seeing other versions of himself or something suspicious)

Part 4

Taken by:

Turn back time, oh, oh
Gonna hit rewind
And find that-

Part 5

Taken by:

all these memories, discoveries
These fantasies, they stay with me

Part 6

Taken by:

Turn back time, oh, oh
Gonna hit rewind

Part 7

Taken by:

Remember all the tales of all the people that I meet
'Cause I have to leave them all behind and then repeat

Part 8

Taken by:

Don't forget this pain and regretz

Part 9

Taken by:

So I can learn from the tragedy
And change the course of this history

Part 10

Taken by:

Move through time (oh ay oh)
Don't overlook the signs (oh ay oh, oh, oh)

Show Wilbur looking for the button while Karl in the background teleports away with his portal (I like this theory lol)

Part 11

Taken by:

Now I see (oh ay oh)
It's my responsibility

Part 12

Taken by:

Turn back time, oh, oh
Gonna hit rewind
And find that-

Part 13

Taken by:

all these memories, discoveries
These fantasies, they stay with me

Part 14

Taken by:

Turn back time, oh, oh
Gonna hit rewind

Part 15

Taken by:

Remember all the tales of all the people that I meet
'Cause I have to leave them all behind and then repeat

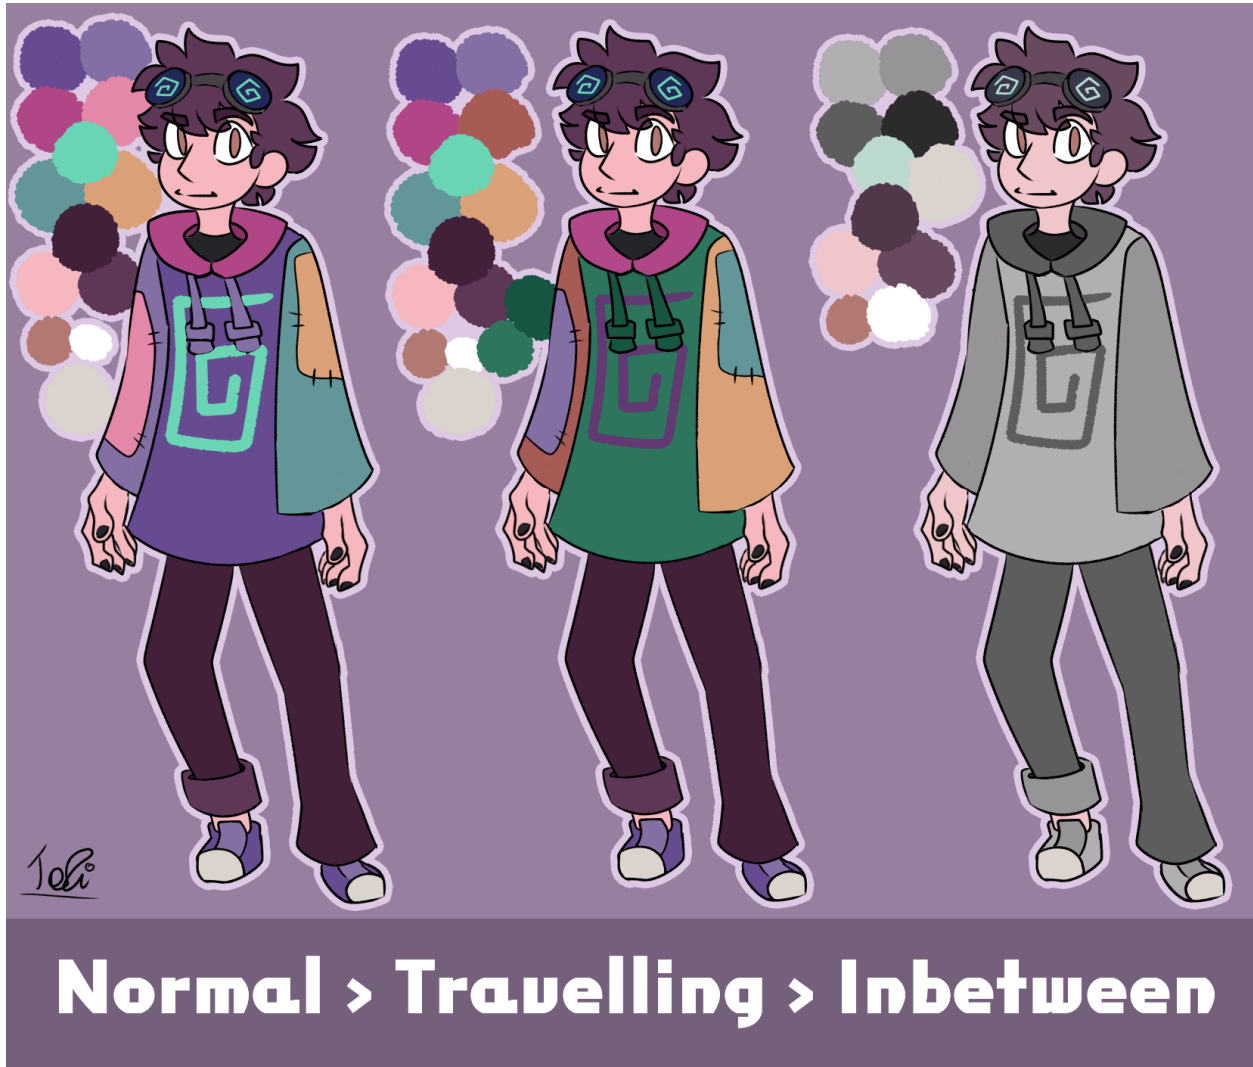

This part should be a sort of goodbye to the stories he's seen and the people
he's met, could also be him in this room

Outro:

Instrumental

Him coming back to the present, being ready to get home, he sees Sapnap and
Quackity and embraces them, basically a little wholesome moment :)

Karl can teleport around in portals that looks like this one below!
