BATTLE CRUSH is a game where the last player standing is declared the winner out of up to 30 players, surviving from a shrinking terrain while facing enemies coming from all directions. Its feature highlights include:

- **Quick, action-packed strategic brawl battles with simple and easy controls** – With a distinctive set of user-friendly controls and strategic combat actions, players can combine five types of skills to enjoy satisfying gameplay where each round only lasts eight minutes at most. Each attack and defense skill varies in distance, timing, and stamina consumption depending on the characters, allowing for strategic gameplay.
- **Unique battlefields and various game modes with up to 30 players** – The battlefield narrows gradually over time, forcing players to always stay on the move. Players can choose from various game modes – Battle Royale (Solo or Team), Brawl (Solo or Team), Build-Up – and unique battlefields based on their tastes.
- **Play with *Calixers* with their own story and unique skills** – *BATTLE CRUSH* offers a diverse range of *Calixers*, inspired by mythological figures like Hermes, Poseidon, Urus,

and Lops. During the Beta Test, it offers 15 *Calixers* in total, exhibiting their individual charm through their unique skill sets.
