Project Lead The Way Courses

Pine Island High School offers Project Lead the Way (PLTW) courses in Science and Engineering. PLTW courses are rigorous college level courses that focus on project based and hands-on learning. PLTW courses emphasize critical thinking, creativity, innovation and real-world problem solving. PLTW courses are open to all PIHS school students and may be of interest to students pursuing STEM-related career fields. ***College credit is contingent on successful completion of the course with an 85% or higher and a minimum of 70% on the final PLTW course exam. Upon successful completion of the exam, students can opt to have their college credits transcribed at PLTW affiliate colleges and universities for a fee.***

Biomedical Track Courses:

- | | |
|-------------------------------------|-------------------|
| ● Principles of Biomedical Sciences | 3 College Credits |
| ● Human Body Systems | 3 College Credits |
| ● Medical Interventions | 3 College Credits |

*All credits will be listed as ETS199 on the transcript with a different section for each PLTW class.
