

## **FLOODS 2024 – Wookey and Godney Parish Councils**

We have all been affected one way or another by the floods from October 2023 to now. Disturbingly large areas which have not been known to flood over the last 20-30 years have flooded this winter. The maintenance work on the local waterways in our area appears to be woefully neglected.

The purpose of this questionnaire is to collect information from people affected which will then be collated and sent to the following: Environment Agency, Drainage Board, Our local Somerset County Councillor and our Local MP James Heappey. An anonymised and summarised version with no personal information will also be sent to local media with the aim of spurring some action to improve resilience to flooding in the future.
