## Accessibility Checklist

In the tables below, the letter **P** indicates Pass, **NI** indicates Needs Improvement, and **NA** indicates the requirement is not applicable in context of the document/presentation.

Table 1: Accessible Documents and Content

Requirement	P	NI	NA
Use Heading styles and other built-in structures like ordered lists.	bianic	blook	
Use real text, not text within a graphic.			
Use basic, simple, easy-to-read fonts.	Total Co.	lands.	Maria.
Avoid blinking or moving text			
Choices of text size, font, and foreground and background colors enhance readability.	bianic	blook	Mank
Use alternative text for all images.			
Use Image Descriptions for complex images			
Tables are used for Columns and rows of data not formatting			
Tables have a designated Header Row			
Tables are not allowed to 'Break Across Pages'			

Table 2: Accessible Hyperlinks

Requirement	P	NI	NA
Hyperlinks are meaningful and clearly tell participants where they are going	blank	blonk	Hlank
Hyperlinks that open in a new window are clearly marked as such. Email is the exception			
Internet resources, including videos, can be navigated or operated with keyboard shortcuts.	blank	Monk	Hlank

Table 3: Accessible Images, Charts, Graphs, and Diagrams

Table 3. Accessible Images, Citarits, Orapits, and Diagrams			
Requirement	P	NI	NA
Alternative text is provided for ALL images, charts, graphs, and diagrams.	1000	blank	Hank
The alternative text is meaningful to the context and replaces (not describes) the images, charts,			
graphs, or diagrams. It is succinct, generally between 5 and 15 words, or about 100 characters.			
A long description is included near images, charts, graphs, and diagrams that are more complex.	lines.	blank	Hinni
Tables have a designated header row and include a title/caption. Verify the reading order using			
the tab key.			
The Title/Caption of the table can be repeated as the table's alternative text. When the table		biank	Mank
contains more complex information or abbreviations, more explanation, in the form of a long			
description, is provided near the table.			

Table 4: Accessible Video and Audio

Requirement	P	NI	NA
Transcripts are provided for all linked and embedded audio files.	blonk	Maria	Hand.
Audio and/or video files are not set to Auto start and do not loop.			
Linked and embedded multimedia clips and videos are captioned and audio descriptions are	blank	blonk	Marak
included, when appropriate.			
A link to the plugin is provided when needed.			

Table 5: PowerPoint Specific Accessibility

Tuble 9: 1 Owell of the Specific Precessioning			
Requirement	P	NI	NA
The slide show has been created using a built-in PowerPoint slide layouts.	liank	likurik -	Hank
Each slide has a unique title.			
All content in the deck appears in the outline view of the presentation.	blonk	blonk	Hank
The information appearing in the Selection Pane is in the same order as it appears on the slides.			
All slide notes contain appropriate descriptions of images, graphs, tables, and charts that appear	blank	hionic	manic
on the slides.			
Word Art is not used in the deck			

Math Content	P	NI	NA
Math is in Math ML, LaTeX, or HTML with Mathjax	Transition.	blank	Mank
Graphs have image descriptions and alt text			
Math is not in PDF Format	blamk	blank	Hlank
Users can navigate each element of an equation			

**ALL** content needs to meet accessibility guidelines.
