

How The Step-by-Step Math Guidance Service Works

Step 1 — Send Your Math Problem

Send:

- screenshots of your assignment or problem
- the specific question/topic you need help with
- your deadline (if applicable)

You may send:

- assignments
- worksheets
- practice problems
- confusing lessons
- algebra/precalculus questions

Where to Send:

- Email: sylphwaven@gmail.com
- Instagram: <https://www.instagram.com/math.foundations/>
- Discord: mathfoundations_62177
- TikTok: @_mathfoundations

For messaging, follow this template::

Subject: Math Guidance Work

--send screenshot or file of the assignment or problem---

Step 2 — Wait For Review & Pricing

Your request will first be reviewed based on:

- difficulty level
- number of questions
- time required

You will then receive:

- the total price
 - estimated response time
 - confirmation if the request can be accepted
-

Step 3 — Payment

Payment must be completed first before work begins.

Accepted payment methods:

- PayPal
-

Step 4 — Receive Step-by-Step Guidance

Once payment is confirmed, you will receive:

- guided solutions
- beginner-friendly explanations
- step-by-step breakdowns
- clearer understanding of the solving process

The goal is not only to provide answers, but to help you understand how the problem works.

Step 5 — Ask Follow-Up Questions

If a specific step still feels confusing, you may ask follow-up questions for clarification.

Important Notes

- This service is intended for guided learning support and educational understanding.
- Response times may vary depending on workload and availability.
- Extremely rushed requests may not always be accepted.
- Please be respectful and patient during communication.

Thank you for supporting the Math Foundations community.
