THE BLACK FLAG

(BY TAHA ISHAQ)

The black flag novel is about a fictional khilafat of Islam to pay tribute to people those who helped me change my lifestyle. The story revolves around ending times of world where a group of people high in morality stood up against all the evil standing. The struggles of khalifa Abdullah and his men for a better world. All this is fictional and will follow my story lines to increase the concept of jehad in our people and tell them how much love of Allah and his order is important for this world before it turns to ashes and dust by all propaganda going on.

The Village

(First war)

Thundering hoofs from the direction of setting sun they can hear it, A man with high morale and belief to the right order is coming towards them along with men of thirsty swords and no mercy to those who stood against Allah and tried to infect the roots of this precious world of humans. The black flag in hands of him standing there before the scream of valor giving the last stare to the dead men he see, Raised the sword that says “And for Allah I WILL”

Khalifa: And now it’ll be done these jews will pay for every drop of blood they spilled of innocents, They may have won the lands through power and tricks but how will they end our belief and honor? Listen o’ Men who fight in the name of Allah it is time for our revenge it is time for truth it is the time we lose or win again. And by the name of Allah our horses will never stop…. Raise your swords and marchhhhh! To where our most lovely time awaits to martyrdom or towards victory….

Taha: The left archers division with me to the high grounds And the right archer division opposite to us with flammable ropes tied to your arrows and will shoot at my command, May Allah bless us with victory, Lets bring peace to these lands once again for Islam!

Hamza: Khalifa and general we have to march for gaza to assist our second army who awaits us, When we are going to engage? And that smell I believe Satanists are there with them , Something is odd I can sense it.

Taha: Spies already have taken care of all that remains in ramle and have also sent the word about how things are in gaza, We here expect not only jews but as per their belief some demons too.

KHalifa: Sounds good my sword has never tasted demon before.

Taha: At sunset our spy is going to execute the head Satanist here in that red house towards back side of city, we are going to engage the attack in 20 minutes.

Khalifa: I trust your plans, Lets take position.

Commanders: As you order!

As the time passed khalifa with his division marched forward and upon seeing this the jew commander said to his army.

Jew: We have to defeat them here or else gaza falls we will be assisted by our friends so don’t be afraid we will defeat them and bury them here.

Jew soldier: Commander! The allies building it its on fire and I hear screams from inside what is happening.

Jew commander: What? But how? Who did this

As he said these words arrows came flying inside with fiery ropes with them on the army of jews crippling their movements and horses followed by the second wave of petrol carrying arrows. As they saw the khalifa and army riding towards them with black flags all they knew and saw was their death , scared cowards started to ran away from battle field along with their commander but failed, The army came of khalifa came close and bloodshed started…

Khalifa: And may the eyes of cowards never sleeeeep!

Cutting heads and bodies of whoever came in sight with slogans of Allah hu Akbar the muslims in no time won this battle and captured the jewish commander along with his officials.

Soldier: We captured him while running away khailfa.

Khalifa: So this was your glory? And pride? Not knowing the art of war? Getting failed because of a simple stratedgy? Bring him that.

Solider: Affirmative

And then the soldier bring with him a rucksack full of heads of spies the jews had sent ,with them was his very own son's head the jewish commander thought as the most skilled assassin who was killed in duel against 5th commander of khalifa while assassinating him.

Jewish commander: no! it cant be, Curse you muslims and khalifa Abdullah who will soon be killed with his whole army of animals (Spit)

Khalifa with his sword on the neck of jewish commander,

Khalifa: I wait for the day of martyrdom more than you wait for my death but this is a statement unknown to the cowards like you.

Jewish commander who was scared and shaking told the khalifa to let go off his wife and infant, and then cursed him again.

Khalifa: I am not those men who came and slaughtered the innocents I am Abdullah the one who raised sword for Allah and who follow the teachings of Prophet Muhammad صلى الله عليه وسلم and why would I kill those who didn't stand against me in battle field? I am not you, May the eyes of coward never sleep.

After saying this khalifa lifted his sword and chopped of the head of jewish commander and said "The peace and justice will be stored to these lands now! , In the name of Allah" All the army prayed nawafil of gratitude after victory and told the citizens to worry not and no one will be treated any harshly but those who tried to oppose the laws of Allah will be treated as the commander who lost this war.

At Night time:

Obaid: Taha!

Taha: O' Mashallah, look who is here, How things went in the village of jaffa!

Obaid: ALHAMDULILAH , We came victorious the jews surrendered and retreated.

Taha: Mashallah, I never suspected your battle tactics anyways

Obaid: But I have a bad news too, The 3rd division commanded by hamid at the Beersheba is under heavy attack as jews and Satanists made their main army to repel our march to gaza there, The gaza is fortified now and it'll be difficult to to attack it without catapult division in Beersheba.

Taha: To the khalifa quick!

Taha: Abdullah, the catapult division may not make it here, I think we might lose the battle for Beersheba .

Khalifa: We will not, Hamid and I already discussed this matter before marching to our locations. Its an ambush the army of Hamid is followed by division lead by Taha obaid, Once the jews came closer the desert snake division will execute the commands given to them and those catapults are specially build and are just a distraction to the enemy in 1st place. I never share my battle plans to all commanders at once so lets not assume things you only see or hear.

Commanders: Understood! That's a relief.

Khalifa: Indeed this plan, We were able to do it because of Talha our spy in Beersheba, May he be alright by now, We waited long enough for all this let's not the wind or these deserts stop us now, May Allah be with us , Lets prepare the army and march to city of Gaza at dawn , I will take the lead with my army followed by Taha's division that will be followed by Obaid's division, Then we will wait for the word from Hamid and taha obaid in Beersheba for stratedgy of Gaza, Our brothers are waiting for us at borders of Gaza lets win this and show the world The order of ALLAH (S.W.T)

The battle for Beersheba

The 4th in commander of Khalifa Hamid had the command of army to Beersheba in order to liberate it. Hamid had the catapult division with him and was deployed because of his defensive battle strategy, The main point of army division was to gather at Gaza in end to cover its all directions except Jerusalem, without catapults the siege cannot go any further as Gaza was fortified, Hamid who already had knowledge of what was about to come stood fat in the desert knowing all well that Taha obaid will soon come from behind , As expected the Satanists prepared their 1st counter attack to the army with suicidal squads to cripple offensive formation of muslim command, Hamid had already prepared to counter attack them as well, as they approached near the spear hidden in land rise up killing their horses and making them a fine meal for archers, it was a mere waste of their lives, Hamid now engaged with offense by moving 3 catapults forward in order to engage their fortified army, The stones were on fire when shot to make them think that attack has started , the lure worked fine and Jewish army's morale crippled but the Satanists were not ready to give up as it was night the army of hamid needed rest as they didn't have the chance to do so in morning but this was the real plan Hamid knew exactly when they will attack, As expected it started as the midnight came , silently and on bare feet troops of Satanists began to march toward them along with Jewish offensive cavalry that was behind them on hold, As they came nearer from behind the army of Hamid catapults started to throw rocks about dozens of them that was when Jewish cavalry met their fate and fort began to take damage meanwhile Hamid had the sign to engage a full offense but with army so tired it'll be difficult, So Hamid with his 2nd army that rested in morning advanced to siege with 20 catapults along with archer division from Taha obaid's army, The tricked work fine and fire stones destroyed the petrol drums at fort as part of plan so soldiers can easily enter it, As Hamid's army met Satanists on battlefield it was all blood and screams

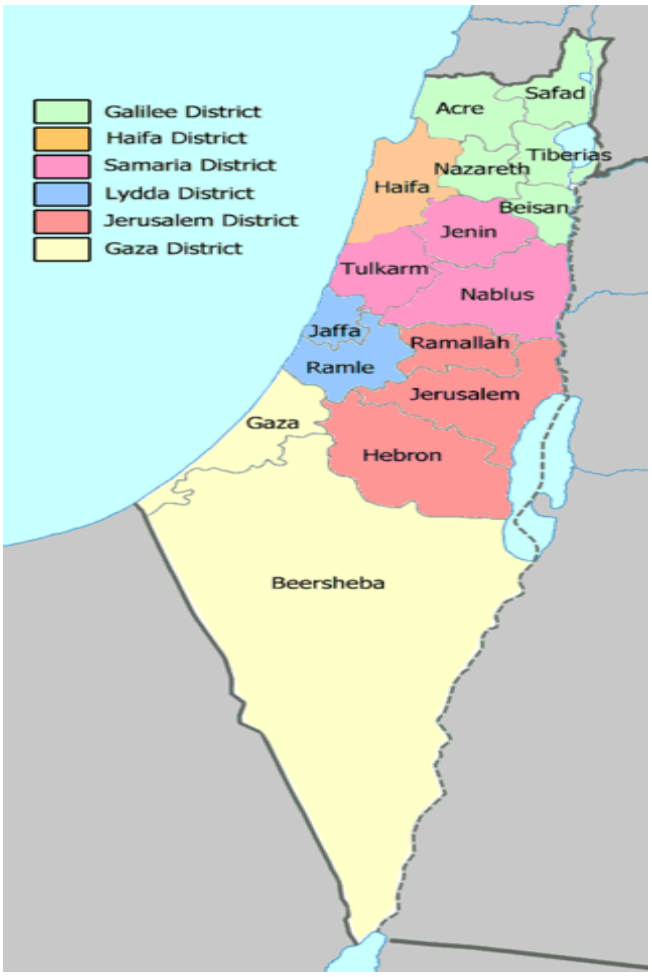

"FOR ALLAH WHO IS THE MASTER OF ALL MARCH!"

Hamid took some wounds against Satanist assassins but none were fatal, As Hamid along with his army killed their offense came closer to fort and ordered the catapults to fire that were given to 1st division those were at defensive, Commander Taha obaid soon joined Commander Hamid in siege and destroyed the fort in some hours and when finally the strong wall collapsed both commanders ordered to engage the armored cavalry to march inside from doors and armored infantry from holes in walls, The Jews who lost their cavalry to stones had nothing much left against a bigger army, As hamid himself marched inside the walls slashing the heads of those coming in his way finally cut down the flag of Jews and captured those who left

Hamid: And we fear he, who fears nothing and say ALLAH is one with no partners and those who will oppose his laws and nature will eventually lose his head to our swords, We gave you chance to repent and to spare the innocents but you were so intoxicated by your power, And I ask again where is it now? Your pride and ego when you are here now on your knees? Didn't khalifa sent you warnings ? didn't we tell you that Jerusalem is everything to us more than the false peace we had outside this battlefield? But you gave us the glory we asked for by showing this attitude. (speech to captured Jewish commanders)

Taha obaid: The view of this tiring yet amazing battle is nothing as compare to one we will have at Jerusalem but I assure you 1 thing, your death will not be an easy 1 and worse to the Satanists you called your friends, At my word chop their heads off, 1,2,3 ALLAH HU AKBAR.

Soldiers chopped off their heads and slogans of ALLAH ALMIGHTY were high at Beersheba, Hamid and Taha obaid with their key success and hard battle prayed the namaz of gratitude and allowed the army to eat and sleep well. 2 days of battle finally came to an end and now was the time to gather at the borders of Gaza to liberate and establish khilafa and rise the black flag of Islam at the gates of every village and city before battle of Hebron.

THE BATTLE OF GAZA

The battle of Gaza was of prime Importance to muslims as they showed but the main strategy was the conquest of Hebron too. Gaza's invasion was led by khalifa and general Taha himself as for obaid-ullah

And Hamza they were to leave the convey and make their way to hebron along with Hamid and Taha obaid was ordered to arrive at Gaza with all catapults of his division, surely it took time well days of course to gather at borders of Gaza and Hebron , The conquest of Jerusalem was and never will be easy but nor our faith is fragile nor our belief is too weak, Khalifa who wanted to change the world along with those who supported him in every rightful decision he made, sacrifices and many struggles one see on right paths, to see the land of Muslims in hands of the biggest enemy and their cruelty to our brothers and sisters was something the khalifa will never forgive, As all the forces gathered at the borders of Gaza waited for catapult division to arrive, Khalifa and G-taha in meantime told all their commanders the battle plan and how are they gonna halt the attack till catapults arrive, Always camp near water and lure the enemy but sometimes tables can be turned and you take the bait, As soon as Khalifa's large army arrived at borders of Gaza Jews who were not in much number all can do was to stop and kill as many as they can or be victorious the last hope, surely what was to come was never easy nor for Muslims nor for the cruel who hide behind worldly power and cowardly acts, But they forgot how lovely it is to be in war for a muslim and how dreadful it is for their enemies, Khalifa came forward and told the Jewish commander to surrender but he didn't accepted the terms and chose to fight a lost battle as major divisons of jewish army were in Jerusalem along with other flags of color and Jewish commander himself knew that Gaza is a lost battle as the supply line was nearly cut down and their major plans were countered because of spies, Khalifa rode back to his army and told them to be ready for the attack when he received the message of a 1vs1 duel and end it all,

"Khalifa why don't we resolve the matter ourselves why hide behind an army when you can kill me in a 1v1 duel? He who wins will take Gaza, I don't want bloodshed nor I want a war I am a preacher of love Iam the ambassador of rainbow and humanity lets end it by ourselves through love I will not fight you but tell you how love really works"

Khalifa after reading it showed sighs of calmness and rode his horse toward the famous love preacher and supporter of LGBTQ commander who was also a jew, As khalifa came down from his horse and smiled the Jewish commander told him to love all humans to which Khalifa replied

"What humanity you talk of? All I know is the voice In my heart says let the blades do the talking"

To which the Jewish commander told him to be calm and listen as he stepped forward

"Don't be like this Abdullah and love humans as you are and your troops stop this bloodshed and return to your land and let us live in our" to which Khalifa replied

"But why did you kill my muslim brothers and sisters when they asked the same? Who came with blasts in our mosques? And what land you talk about? Palestine? And what humanity? Who follows satan and

gay? You chose the wrong man for such statements you should've known that there is a fine line between bravery and stupidity"

As the Jew commander was in complete shock khalifa pulled his sword out and told him to do the same, the Jew got scared but not other choices were left as he invited him for the duel. The duel started and was a better one the commander of Jew had poison in hands and was wearing an iron armor but the Khalifa didnt back off and with his legendary art of fencing and combat trainings kicked the jew commander and he fell off, while standing up he kicked him again and again and again everytime he tried to do stand up he kicked him again And then chopped his 1 finger with his knife and told him not to scream or I will cut another, The Khalifa made him realize oppression and cruelty they did

" stand up" said the khalifa again and again.

The Jew started to beg for mercy and to which khalifa grabbed his mouth and told him

"these are the last eyes you will see and ALLAH the last name you will hear!"

Khalifa then said Allah hu AKBAR and chopped his head off and became victorious at battle of Gaza but the Jew soldiers who never really respected that Gay commander refused to surrender or to retreat , The khalifa's Army camped there for 4 days and small clashes happened in between from time to time till Taha obaid finally arrived with his catapult division at Gaza and after seeing that Jews knew what was about to come now, Waited for a while rested and started the siege of Gaza but the Jews in no time surrendered and asked for forgiveness to which they all were taken as war prisoners and none were harmed and just like this the battle of Gaza came to an end sooner and better than expected and now was the time for the battle of Hebron , The Hebron was selected as main battle place to conquest of Jerusalem because of strategy of safe siege, Other villages and cities had problems with arrival of secondary forces in between the wars but not Hebron as it was closer to Jerusalem but was major religious site for Muslims Christians as well as Jews so the chances of a third army were high too. As obaid and Hamza already were at the borders of Hebron along with Hamid from opposite side as well now waited for the arrival of Khalifa's Army to begin their attack and all of them knew it'll be hard to do so now, Khalifa after the conquest of Gaza waited a day to refill rest and march forward . This battle was in main command of 5 commanders of Khalifa including the main army General Taha and his 4 commanders Hamza, Obaid-ullah , Taha obaid and Hamid, Hebron was targeted as a quick capture resort and last battle for now, The city was heavily guarded and had no possible ways for spies to send in messages too, The commanders waited for arrival that was ended soon enough and Khalifa finally came up victorious at Gaza.

The Battle for Hebron

When khalifa finally showed up that was the signal to engage in the attack at the offensive army that awaits at the gates of hebon's fort, Khalifa planned the battle as offensive and defensive groups with siege battalions at rear, G-Taha and Hamza were given the command to defeat the offensive cavalry of Jews at gates of Hebron while protecting their divisions from major casualties, The attack pattern was simple and 2 way, G-Taha will take on the lead and will face the cavalry head to head followed by hamza's division of archers and assassins to target their commanders, Jews with heavy armors and there stood Muslims with higher faiths and valor.

Taha: There it is the staircase of Heaven, it'll lead us either to Jerusalem or to the Allah's promised lands, MY soldiers fight and never are afraid of the cruelty of this world, our swords strike where there is no justice and lie flies everywhere, Put your trust in Allah and worry no more , Ride and show them the hell they deserve!

Hamza: hah! Old habits die hard commander, I'll take the lead with you.

Taha: Haha, yeah old mates never die too, My horse is faster btw, see ya… marchhhhh!

Hamza: don't u die!

Taha: Our cause is worth dying for.

Hamza smiled and ordered his cavalry to march with them, as soon as the clash started the massacred happened one who fought for justice and truth and against them were the cruel and liars, Both commanders fought and killed whoever came in sight till the time when finally Hamza's horse died by spear and he fell down but still continuing the battle but more offensively now chopping heads of when finally realized that Jews finally started ran away as their commanders were successfully assassinated, as the dust settled and was about to scream the victory was shot by an arrow in the back but was not fatal as because of the shield .

Taha: Hamzaaaa!

As the general screamed armies came shielding the wounded commander and started to retreat as the front was now captured giving the chance to start the siege but it was only the starting as 3 more enemy armies were awaiting for them, Hamid with his catapult division as commanded by the khalifa started to take the front with Taha obaids division with dozens of catapults and G-Taha and obaid-ulah were ordered to take sides with hamza's division as garrison. Khalifa himself this time took the front in case enemy attacks back with a mighty army.

Khalifa: Hamid and taha obaid prepare the catapults and start the siege. Remember no rest until the walls collapse, Taha and obaid-ullah you both will cover the sides with major offensive interfere incase we get under attack again, Hebron should fall quick or else we will be in a disadvantage.

On his white horse khalifa raised his sword and showed the sign of respect and trust he had for his armies and commanders and how high hopes he had , The destination of truth is always sweet but full struggles, in his eyes was the justice they were about to give to Jerusalem and the fruit of their sacrifices till now.

As the siege started the Jews did the counter attack by their catapults and Hamid's division without a proper cover was at a disadvantage but the siege continued and from time to time both started to lose their catapults but Muslims had them in a larger number and continued, soon the walls started to collapse and their catapults also got fatal damages and few were burned because of fire stones. As the wall collapsed Khalifa with army rushed forward and saw 2nd cavalry of Jews started to march against them with archer division on back, Khalifa still marched forward

Khalifa: For ALLAH!

As the battle between the army started Taha with his secondary forces interfered as planned from behind to take down the archer division of Jews followed by the Obaid-ullah's army that joined khalifa and flanked left of Jewish cavalry and battle soon ended with no survivors of Jewish cavalry and khalifa standing strong with his commanders and ordered Hamid to continue the siege again before entering to cripple their wall defenses even more

All Jews could see was dust and glorious army of Khalifa Abdullah Ishaq Standing tall full of valor ready to trample every last one of them
