RE: O.S.H.A. Mandated Asbestos Awareness / Bloodborne Pathogen Training

Dear Pastors, Administrators and Principals:

O.S.H.A. regulations state that all maintenance and custodial personnel who work in a location containing asbestos materials are required to attend an asbestos awareness training course annually. O.S.H.A. also mandates annual training for employees whose duties may cause them to come into contact with blood or other bodily fluids during the course of their work day. Maintenance/custodial personnel normally do have an occupational exposure to blood and/or bodily fluids.

I will once again be providing this service by conducting the mandated training at no cost to you. The training classes will last approximately three hours – two hours for asbestos and one hour for bloodborne pathogens. To make it convenient, we have scheduled the classes at facilities across the Diocese, including here at the Catholic Center.

Below is the schedule with all training location dates and times. Please have your maintenance and custodial staff choose a location and time that is convenient for them and either mail, fax, email hlauer@buffalodiocese.org or phone in their first and second choice prior to **September 9, 2022**. **For responses by either mail or fax, please use the response form on the reverse side of this letter.**
