1. Why do you want to join the BWell Lab?

2. Please describe any relevant experiences that would be helpful in working as an undergraduate RA in the BWell Lab.

3. List any courses you have taken that are relevant to the work done in the BWell Lab. For descriptions of [current research projects](#) and [publications](#) please visit our [website](#).

4. Please list all relative skills that would be helpful in serving the lab (e.g., fluency in a second language, skills in a specific software, etc.).

5. What are your career aspirations after completing your undergraduate studies?

6. What are your research interests? For example, if you were to develop a research project, what kind of topics would you be interested in?

7. Which days and times do you have availability for attending meetings in the upcoming semester?

8. Are you an honors student? Yes ☒ No

9. If you are currently working on an honors thesis, who is your mentor (or thesis chair)?

10. Are you currently involved in other research labs on campus? If so, please write the name of the lab and the director of the lab:
