

Assistant Superintendent Board Report

July 15, 2024

I. School Safety Plans

All school safety plans have been approved by the state. This has been a very intensive process for our principals and they have been working closely with the state to create plans that will address the safety needs for our staff and students at all our sites.

II. PD with POMs on Monday, July 29th

On Monday, July 29th, POMs and Associates will train our staff on Family Reunification, Active Shooter, Professional Boundaries, and Threat Assessment. Staff will rotate through the 4 sessions. Restorative practices will be scheduled by principals for their sites. Other state required training will be completed online through Vector.

III. Reunification (Continued training)

On Tuesday, July 30th, administration will meet at the rodeo grounds to review our reunification procedures.

IV. Site Budgets and 90-Day Plans

Principals are in the process of completing their school's 90-day plans along with their site budgets for the year. Once both are approved, they will be able to spend their federal funds.
