

[Date, 2025]

Congressman Mike Lawler
One Blue Hill Plaza, Third Floor
P.O. Box 1645
Pearl River, NY 10965

Dear Congressman Lawler,

As a resident of Mahopac, I am writing to urge you to oppose any cuts to federal funding for public education and to advocate for continued investment in our schools. Federal funding is essential to the success of Mahopac's students and schools.

These funds support critical programs such as special education, free and reduced-price meal programs, student services, and enrichment activities. Reducing or eliminating these funds would have serious consequences: increased class sizes, cuts to vital programs, and diminished services for our most vulnerable students.

Additionally, such cuts would place greater financial strain on local taxpayers, who would be forced to fill the funding gap at the expense of other community priorities.

Strong public schools benefit not just students, but the entire community by maintaining property values, supporting local businesses, and preparing the next generation for success.

[Write more about why this is important to you]

I respectfully ask you to stand with Mahopac's families and students by ensuring federal funding for education remains a national priority. Thank you for your time and attention to this important issue.

Sincerely,
[Your Name]

[Date, 2025]

Senator Chuck Schumer
757 Third Ave., Suite 17-02
New York, NY 10017

Dear Senator Schumer,

As a resident of Mahopac, I am writing to urge you to oppose any cuts to federal funding for public education and to advocate for continued investment in our schools. Federal funding is essential to the success of Mahopac's students and schools.

These funds support critical programs such as special education, free and reduced-price meal programs, student services, and enrichment activities. Reducing or eliminating these funds would have serious consequences: increased class sizes, cuts to vital programs, and diminished services for our most vulnerable students.

Additionally, such cuts would place greater financial strain on local taxpayers, who would be forced to fill the funding gap at the expense of other community priorities.

Strong public schools benefit not just students, but the entire community by maintaining property values, supporting local businesses, and preparing the next generation for success.
