Jan 24, 2021. Intuitive Public Radio Volume 2021, Episode 4. **We are in the business of offering privileged professional resourcing to survivors of the most violent intersections.**

- We take a person off the street and give them immediate access to a marketing and media co-creation team, community support, tool sets, and tech to ensure their economic success. • Any Survivor in a location where we can collaborate with one another has immediate emergent benefits often otherwise non-existent, so we are offering immediate value to each one of us, any person in our locations, and individuals who are in the most severe circumstances that we might encounter or interact with. • This is why --- any time you might feel despair or hopelessness for any reason --- please remember that IPR has been striving to communicate. Please allow us to offer you these solutions. ---[@evanjacques](#), [@maxmorris](#), & [@intuitivepublicmedia](#) •

<https://anchor.fm/intuitive/episodes/Kindness--Inclusion---Physical-Safety-epd72v>

Please help us sustain our [infrastructure](#); please help us safeguard and protect the work of these severely affected survivors.

Your assistance restores and facilitates basic survival income for those experiencing the very most violent and invisible [intersections](#).

We are able to improve our safety if we have any access to small amounts of money.

If we are disallowed our own income streams... if we are [disabled](#) in and around our communities... if we are excluded from resourcing... we are not allowed to survive; we are mandated to be tortured to death while others fail to notice or explain it away without being willing ever to talk to us or to respond to our desperate cries for relief from suffering.

We are remedying this situation with your help.

We're so grateful to those of you who have [contributed](#) already, who have recognized that immediate [emergency action](#) is needed in and around all our communities.

This prevents suicide, premature death, and human trafficking.

Please start out today by helping us fund [Bridge Grant 001](#). You can find more information at <https://Intuitive.pub/bridge/families>.

This grant provides immediate resourcing to 3 of our bridge families who have been surviving terrible circumstances. (This includes mine. ---@maxmorris)

This grant helps to get immediate relief into the hands of survivors who are experiencing violence that other people need more information about.

Letting us die at these intersections keeps everyone else from benefiting from our lived experience.

We don't want that to happen.

That's why the Intuitive community knowledgebase is being built out continually for sharing between all interested communities so that we can all be safer immediately.

It's hard for me to know what I just said because I am in such extreme pain without my medicine.

Our other families in this Bridge Grant 001 have similar considerations --- where there are very basic needs that are not being met because the way our society has been structured was not meant to get those needs met.

If you ask disabled and severely disabled people anywhere in our vicinities you will find similar stories.

This is why we need [Intuitive Public Radio](https://Intuitive.pub/bridge/families) and the efforts of our Intuitive community network to ensure kindness, inclusion, and physical safety for all those striving to care and help one another most successfully.

Jan 21, 2021. If you are able-bodied, you have an especial responsibility to ensure safe, inclusive spaces for effective communications centering survivors of greatest severity.

If you do not support this #disabilityinclusion, who will?

To our knowledge, IPR is the only network establishing these spaces so dearly needed to relieve and safeguard those currently experiencing violence.

If you know of any other, please notify us urgently.

Our network is being destroyed where, by and large, severely disabled people show up to work every day, barely scraping by minimal function, in terrible pain, knowing the collectively crucial nature of our intersections --- but non-disabled people do not.

Even though non-disabled people express themselves with great support of our efforts, they do not come close enough to recognize what's really happening and how easily they could relieve a tremendous amount of suffering (including their own).

Non-disabled people are becoming increasingly disabled themselves because they don't have the benefit of inclusive community knowledge sharing from intersections of violence and marginalization.

This knowledge is missing because severely disabled and intersectionalized people have fallen out of almost all communities, lost, excluded.

This horrifying gap in communications is the obstacle between severely disabled people trying to safely communicate with one another and constantly being taken advantage of by the predatory elements non-disabled people say they are aware of and concerned about... while the same predatory elements are ensured access to disabled people ***because of the *absence* of non-disabled people.***

Our efforts in broadcasting over this Intuitive Public Radio have first and foremost been about communicating to you how you can make us safer right away --- by remembering us, including us, and engaging with us in daily, relationship-building community that fully restores safety, respect, recovery privilege, and social protection against extremity.

How can we communicate to non-disabled people how profound the collective results will be when they join us here?

How can we communicate to non-disabled people how soul-killing it is to watch severely disabled people struggle to show up reliably while isolated and left to predatory elements... while non-disabled people express that they care... but somehow cannot close the distance between us... which would so effortlessly stop this ongoing violence?

I and other community members and core organizers undergo extreme circumstances of ongoing physical torture while people who are not being physically tortured seem bewildered about why we are asking them to engage with us in kindness and belonging.

Please, help us.

Please, be in contact with us. ---@maxmorris, @maxmoradio
