

Canvas Parent Accounts

What is Canvas?

Canvas is a Learning Management System we are currently using at Willard High School and Willard Middle School. Parents can sign up for a free Canvas account to view the resources and activities posted in their child's courses that are available on Canvas.

Parent accounts can:

- Read announcements, calendar, and course syllabus
- See a list assignments and quiz titles with due dates
- See your child's assignments and quizzes, but not his/her discussion posts
- View your child's scores on assignments submitted in Canvas
- Use the Inbox to contact the teacher
- Set up notifications to get emails or texts for announcements, assignments, etc.
- View the Modules page if available in the navigation
- View files and pages in the course

Grades

The overall grade for a course in Canvas does not indicate the student's current grade for that class. It only includes the scores for assignments completed in Canvas. Not all assignments are completed in Canvas. Please see SIS, the Student Records app, to see all your student's scores and grades for a course.

Create Your Free Parent Account

Step 1: Get the Pairing Code from Your Child

Your child can generate a pairing code to share with you to be used to link you to your child. This code will expire in 24 hours, or after one use. There is no limit to the amount of pairing codes that can be created by a user. You child can follow these steps to generate the pairing code.

The screenshot shows the Canvas user interface for a parent account. On the left, a vertical navigation menu is visible with icons for Profile, Settings, Notifications, Files, and ePortfolios. The 'Settings' link is highlighted with a red circle and the number 2. The main content area shows the 'Janetta Garton's Settings' page. The 'Web Services' section is visible, and the 'Pair with Observer' button is highlighted with a red circle and the number 3. The top of the page shows the user's profile and a 'Logout' button, which is also highlighted with a red circle and the number 1.

Pair with Observer

×

Share the following pairing code with an observer to allow them to connect with you. This code will expire in 24 hours, or after one use.

4

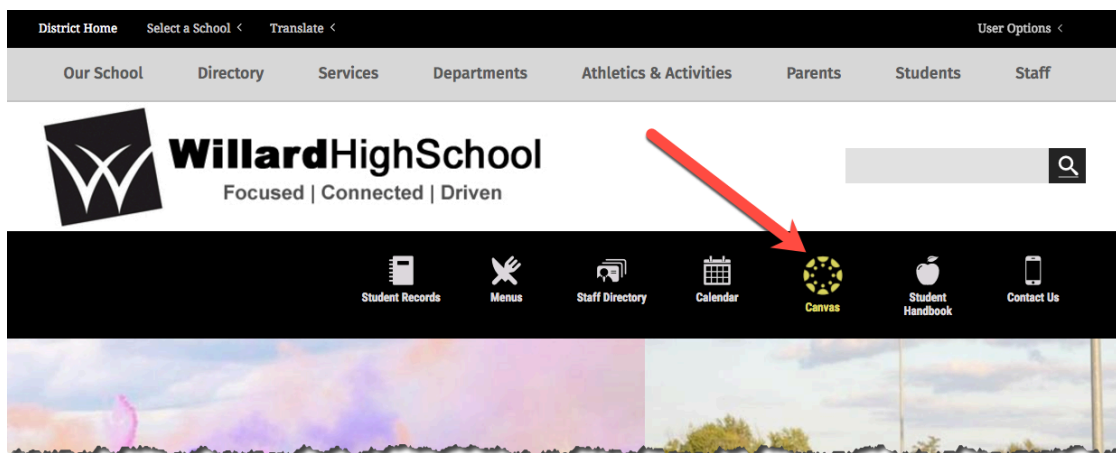

Share this code.
