- Both Teams to Score. Another simple bet type is where you need to predict whether both teams will score goals.
- Double Chance. It is a perfect two-in-one bet type to insure yourself. Here, you may bet on 2 independent outcomes simultaneously. For example, you may wager on a team to win or draw.
- Correct Score. Here, everything is simple: you predict a correct score that will be by the end of the match.

Cash or Crash Games

Crash or instant games are a revolutionary **1Win** category that does not require special skills or experience. The gameplay of all crash games is the same and consists of the following steps:

4. Cash-out the initial bet multiplied by the coefficient at which you claim withdrawal until the curve crashes.

Since crash games are RNG-based, it is impossible to 100% predict the outcome. You may try such strategies as Martingale, Fibonacci, or d'Alembert, but they won't increase the probability of winning.

Among other peculiarities of cash games on **1Win Canada** are an inbuilt live chat and support of the Provably Fair algorithm. Also, they allow the use of Auto Bet/Auto Cashout options.

Aviator

- Min/max bet: \$1 CAD - \$140 CAD;

JetX

- RTP: 97.27%;
