

What am I going to grow?

Purpose: Students will explore seed variety options on the Johnny's Seed website to ultimately select a variety to grow and apply our learning on throughout the duration of the course.

Question: "What plant can I grow and learn from throughout this term?"

Materials:

- ☐ Chromebook
- ☐ LearnBook
- ☐ Writing tool

Rules:

- ☐ Your seed needs to cost less than \$7
- ☐ You will END UP picking a seed that is unique to you- each person in the class will grow a different plant variety.
- ☐ Some students will grow food crops and others can grow ornamental crops.
- ☐ Plants can not be root crops (i.e. potato, radish)

Direction:

1. Go to <https://www.johnnyseeds.com>
2. Open up your learnbook to a new page and label it as this assignment.
3. Explore the website and discover what plants can be grown through their company's seed. As you explore...
4. Collect the information in your learnbook from the seeds (collect this info for at least 3 different plants)
 - a. Variety name
 - b. Scientific name
 - c. Maturity (days to harvest)
 - d. Purpose: i.e. eat leaves, eat fruit, ornamental
 - e. Price of the seed container
 - f. How many seeds are per container
