Abstract. This section contains the summary of the article, respecting the structure of the objective, methods, and main findings or results obtained. Extension of approximately 150 words

Keyword. 5 descriptors of the topic of the article, categorical keywords of the disciplines to which it belongs (example 'Public Opinion', 'Political Communication')

1. Introduction

The text of the sections is in Times New Roman 10, without spacing between paragraphs, with indentation of 0.25cm from the each paragraph. The citation format is numerical [1], [1, 2]..., and the number is assigned based on the order of appearance in the document for the first time (in the references, they do not go in order of surnames, but in the order in which they were cited in the file)

Second paragraph (and following) indented 0.25 cm [3,4]

2. Materials and methods

First paragraph (and following) indented 0.25 cm in the first line. Materials and methods

Second paragraph (and following) indented 0.25 cm [7, 8, 9]

Understanding the business

Respect the default font for paragraphs (Times New Roman 10)

First, second (third...) paragraph (and following) indented 0.25 cm [10, 11, 12]

Understanding the data

First step (level 3 of titles)

Respect the default font for each section (paragraph)

Second paragraph (and following) indented 0.25 cm. Keep in mind that a source can be cited several times in the document. Suppose it represents the number 2 in the order of appearance. When citing it, it is placed before those that appear for the first time and whose number is greater than the one already mentioned [2, 10, 11].

The name of the figures goes below each figure in question
