

Hey guys its me xxwarrior_burger513xx / Gemmidi_toilet / Ohio Pilgrim aka #7d89 and Jerry and today im gonna confess to being a mentally ill deranged faggot I also go by **Lasadera**, **lucky_droid777** and **Mente_Horologii** or **Mentos** just incase anyone wants a bri*tish bipolar autistic forsaken boyfriend :3

I met ilovy about a year ago and after a while of being friends we went on catalog avatar creator together because i wanted a new outfit and then i proceeded to make an outfit of twotime from forsaken but as faggot twink femboy Then we became boyfriends and i proceeded to attach myself (knowing damn well im too mentally deranged to handle being disconnected) to him cuz im a failure who has no friends and i immediately fall for any amount of affection

We then broke up like 4 times and each time i harassed him into coming back but (FOR SOME REASON, WHAT DID I DO WRONG TO DESERVE THIS T-T) he didnt want to come back this time so i decided to bond over some random guy i met on rochurch and basically force myself onto him, and also very good thing he was drunk so i took advantage by making him vent about his life to me so that way he feels bad about leaving such an empathetic guy and i also sent him a giftcard so he would feel bad if he wanted to leave me I then proceeded to go on about ilovy and also force him to live the way i want i.e not sleep and play with me 24 hours a day vv

but uhh ill try to cut him off, even though hes not evil, i just want to, cuz im not comfortable with him

im sick and tired of not being allowed to sleep or take breaks, being shamed for it, and having to hear about his past relationship 24/7

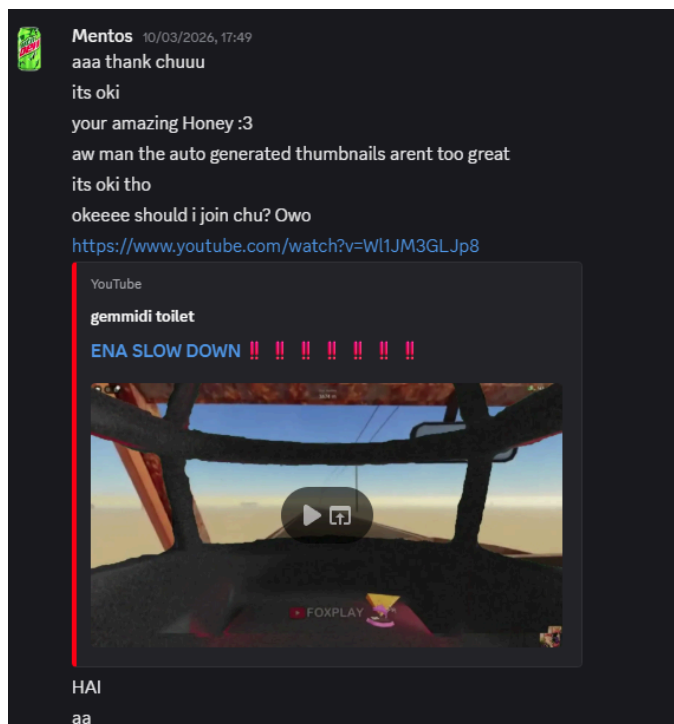

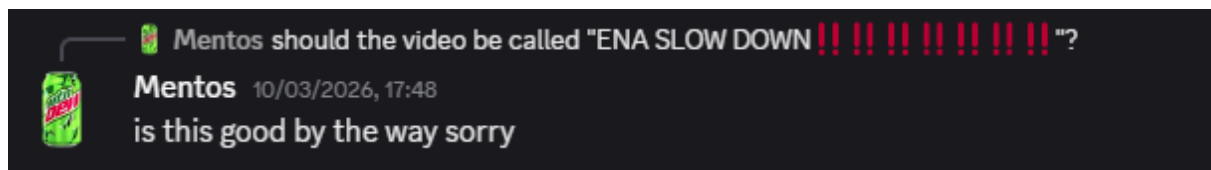

Censored guy is the second person

ya

ohh

yeah, i see

pretty crazy to think that me getting fired then put at mediator actually benefited me HUGELY

its like ducking down in a bus thats about to slam into a bridge

all the jannies higher up got killed and not only did i survive but i then got promoted into one

Remember the start of the doc?

Mentos 05/01/2026, 17:41

thank you

well

it happened literally because of silent treatment

these two SUPER close friends. one couldnt speak and would go days without messaging me, and the other purposfully didnt message me

the one who couldnt help it was fine, i understand him

but the one doing it on purpose rilled me up really bad

i would beg in his dms for him to message and he never would

hours and hours

of course i would be shaking sometimes but you probably figured that

eventually it got so bad i just cried in my room and kept crying until it got louder

i started hitting my head off the wall and my father shouted at me

i then grabbed the hammer i had hidden in my desk and started crying extremely loud in the corner of my room

my parents called the police and i was sent to the hostbital

they wanted to do tetst on me

i didnt let them, i fought back for probably hours

then i was sent home and it was over

i had went "missing" beforehand too overe the same thing but i didnt mean for it to get that bad

i really dont like silent treatment man

TL;DR

xxwarrior_burger513xx's other names are **Gemmidi_toilet**, **Jerry**, **lucky_droid777**, **Mente_Horologii**, **Mentos**, **Lasadera**, and **Ohio_pilgrim** (youre kinda gonna have to trust me on the last one)

He *is* a janny, with the code being **7d89** according to himself

He is a very deranged creepy mentally ill gay autistic who just make other's life miserable

Snca part: he also harasses people for cutting ties with him but thats kinda harder to show since it usually takes place in games
