# Playlist: Creating a Playlist

HIGHLANDER
INSTITUTE
Leveling the Field for All Learners

Context:

Helping educators become familiar with playlists for students. Playlists allow teachers to create differentiated content and activities based on student needs and interests. Playlist software such as Blendspace and Gooru allow teachers to search for existing playlists by content or standards.

Objectives:

After completing this playlist, you will understand the benefits of using playlists in the classrooms and be able to create your own playlists in Google Drive / Classroom, Blendspace and / or Gooru..
