

Seminar Survey

Possible questions:

- How often would you like to attend a regular seminar
- Do you watch the video of e.g. the DESY colloquium if you couldn't attend live?
- Which topics would you be particularly interested in (see below, was not so super useful, maybe more ask on specific topics they would like to see more and give list?)
- Would you also be interested in a DESY-wide colloquium beyond FH
- Would you be interested in an additional seminar concentrating just on FH topics

Specific on Tuesday Colloq:

Please indicate your available times for the colloquium on a Tuesday - if the colloquium takes place in person.

How important in your daily work schedule is it for you to attend the colloquium?

How often do you attend the Colloquium during the semester on average?

How do you grade the quality of the talks in general?

How appropriate is the level of the talks?

How do you grade the selection of topics?

Would you like to have more/less talks outside of Astroparticle and Particle Physics?

Please tell us your suggestions of topics you would like to be covered more in the future.

Please give us your concrete suggestion of a speaker we should invite and a possible topic, if you have.

What are your ideas to make the DESY Colloquium more attractive to attend in general?

What are your suggestions to make the DESY Colloquium more attractive especially to young people?

Any other comments you want to share with us?

Information about the participant

What is your main scientific area of expertise?

What are you? Exp/T/Computer Scientist/Engineer

What is your position? student/PD/staff...

What is your gender?
