

Parents,

We are aware that there are some issues with joining your child's Google Classroom.

Here are some troubleshooting tips:

1. Verify Classlink Website - <https://launchpad.classlink.com/mvisd> and log in
username: ID# Password: 12345678

2. Click on Google Classroom

Here is the important part. Make sure the top right corner of your Google Classroom shows your student's Google acct. If not, you will need to log out of all Google Accounts and go back into classlink.

3. If the student is logged in, you can now click the + sign to join a class
You will need your child's unique class code that the teacher has sent.
