

Informed Consent for Anonymous Survey

Project Title: Manor, Texas Healthcare Resources Survey

The purpose of this study is to learn more about healthcare needs and healthcare access in Manor, Texas. The study is an anonymous survey that has 24 questions about healthcare access, healthcare needs, demographic information, and related questions. You must be 18 years of age or older and live in Manor, Texas to participate in this study. This study is being conducted by Austin Community College in collaboration with the Black Men's Health Clinic.

This survey is designed to be completely anonymous. No names, birthdays, telephone numbers, addresses or other identifying information will be collected in the survey. If you prefer not to answer certain questions on the survey, you can leave any question unanswered if you so choose. Anonymous results from the study are planned to be published, presented at public events, shared with community and governmental organizations, and shared with the general public.

There is minimal risk to participants related to taking part in this study. As the survey asks questions about healthcare, it could bring up memories of negative or unpleasant previous experiences in healthcare settings, related to health problems, or in regards to accessing healthcare. Potential benefits to participants could include additional knowledge of healthcare resources.

Participation in this study and survey is voluntary. You may decide not to participate in the study or to stop participating in the study at any time without penalty. If you begin the survey and decide you would no longer like to participate, you can stop taking the survey at any time. You must be 18 years of age or older to participate. There is no compensation associated with participation in this study.

If you have questions or comments about this survey and study, you can contact the Austin Community College Institutional Review Board Chair at _____.

Informed Consent Statement: By clicking the below "Next" button to begin the survey, you indicate that you are 18 years of age or older, have read and understand the above information, give your informed consent to participate in the study, and voluntarily agree to participate in the study by taking the following survey.
