Petition to Protect Abortions - Democratic Socialists of America

Striking down Roe v Wade is an attack on the working class of this country. A government that can take away one person's bodily privacy and autonomy is one that can take it away from all of us. That is why we are committed to the liberation of all people having freedom and control over their own lives and bodies. We demand federal legislation to protect abortion as a human right. We demand that the Senate abolish the filibuster, the primary stumbling block and excuse.

Our autonomy should not depend on the whims of nine unelected lifetime appointments but on the democratic will of the people. Join us in fighting back against these attacks. Free abortion on demand and without apology.
