Guaranteed and Viable Curriculum

Regardless of teacher, this course has common essential learning targets, which are the essential knowledge and skills students are expected to achieve.

Revised 1/15/2022

Essential Learning Targets
Explore business rules and strategies in order to collaboratively implement systems thinking and effective, evidence-based, ethical decision making to begin a new business venture.
Analyze social and human rights issues to identify pathways for establishing businesses, synthesizing conclusions and innovative solutions which integrate historical, personal, and social contexts to build business relationships and create inclusive work environments.
Synthesize interests, pathways, income, expenses, savings and investment to explain implications and express personal goals which exercise financial literacy in lifestyle choices.
