

Woods' 2 4-week assignment

Jerin Donker 2nd hour

Over the past four weeks, I have created the top and legs of my desk, and I'm currently working on putting them together.

I've used the jigsaws and the table saw. And more. I've pieced together my project slowly over the past few weeks, and I've worked hard to get where I am. Some more of this, and I will get it done in no time.
