

PENNED BY CIRCE

“GREAT ADVICE. I’LL REMEMBER IT WHEN I DON’T TAKE IT NEXT TIME”

CIRCE. THEY/THEM. 25.

- discord / twitter / snap are available at mutual request. if you see me having a moment: i’m probably going to be fine. i’m an autistic bipolar person and sometimes i just have to scream. i promise, 9/10 i just need to yell. it will be tagged.
- i have a zero tolerance policy, for racism, misogyny, transphobia, rape, and pedophilia. if i see you engaging in any of those. that is an instant hardblock. this includes genderbend or rule!63 blogs, they are transphobic and i don’t want to be associated with them, as i am trans.
 - also i am deeply triggered by incest if you write incest that’s an instablock
 - i will not follow minors. i am 25.
- my brain is kind of a hot mess at all times, i skip words. have major typo issues. if i do those, i’d appreciate if you would message me out of character and tell me about it. so i can fix it. i get super embarrassed about it but i’m an adult.
- due to many bad past experiences i am a selective blog. i am allowed to choose who i interact with and i will probably only be interacting with mutuals.
- i make all my own icons, they are not free to use but if you talk to me about it i’m sure we can work something out.
- i use my block and unfollow buttons at the drop of a dime. it’s not something that i take very seriously. also if i see that you’ve hard blocked me, i’ll hard block you back. no, i’m doing it because i’m mad or because i hate you if you don’t want me to interact with your content i’m gonna expect the same courtesy.

- nsfw content ie, drugs or alcohol can and will be present on this blog, i am a huge stoner. and love to make weed humor jokes, they will all be tagged but just in case i'm making a warning here. i will not be writing any sexual content.
- kinsley is a lesbian please do not try to ship with me if your muse is male identifying.
- straight people, especially straight destiel shippers are not welcome here. *this is a gays only event.*
- black list, i need these things tagged either as trigger or as circe don't look or i will have to unfollow you.
 - miscarriages
 - rape
 - incest mentions
 - snakes
- violent homophobia, especially violent lesbophobia including but not limited to all forms of conversion therapy tagged. please
 - car crashes
- i know this may feel out of place here, but please do not call me queer or a dyke if don't know you. it makes me deeply uncomfortable. i may call myself these words on occasion but that's because i'm allowed to but i have a lot trauma around them. and i'm not saying you cannot choose to reclaim them but i'm just asking you to have some compassion for gay trauma survivors.
- thank you for reading my rules! i hope you have fun here!
