

My Time BINGO!

Round Four

DIRECTIONS: When you finish an activity below, highlight the space. Once you complete a row, either move to Round Five or try to complete the board!

Measure your bedroom and calculate its square footage. Next level? Measure your whole home!	 Create Mondrian-inspired artwork!	Watch an old movie your parents love. Then review it!	 Play balloon volleyball.	Cardboard. Sticky tape. Marbles. Can you build a run that keeps a marble going for at least a minute?
 Make a dessert from scratch for your family.	Complete a daily exercise challenge: 20 tricep dips; 20 mountain climbers; 20 burpees.	 Take a 26-minute power nap. How do you feel?	Build a musical instrument out of household objects. Play it for an audience. Video your performance.	 Learn "good morning" in 10 languages.
Prepare and send a creative care package to someone you care about.	 Design your next Halloween costume.	YOUR CHOICE!		Use sidewalk chalk to create a hopscotch game or to share positive messages with your community.
 Construct the tallest paper tower you can.	Take close-up photos of everyday objects. Then challenge someone to identify the objects.	 Clean your bathroom!	Make a list of silver linings related to staying at home. Add your best idea to our collective list!	 Run the stairs for 10 minutes 3 times this week.
Make a list of your top ten favorite words. Then find ways to weave those words into your week.	 Build and play 10 pin bowling with your recycling.	Video your pet in action. Then add a voice-over of you describing your pet's actions like you are a sportscaster.	 Build your own googly eyes! Attach them to something silly. Take a photo!	Organize the clothing hanging in your closet by color or style (or both!).
