

Sick on Saturday (simple past)

I had a terrible weekend! On Saturday I was so tired that I slept all morning. When I woke up I had a headache and my throat was sore. I had a runny nose and I coughed a lot. My mother took my temperature but I did not have a fever. My father made some soup for lunch and I ate it in bed. I drank some juice. I tried to read a book but I couldn't keep my eyes open. I lay in bed all afternoon. I drifted in and out of sleep. I drank more juice. I felt miserable all afternoon. I didn't want to do anything. The next morning I felt better but now my mother had a cold! She looked miserable. It was her turn to be sick.
