# Session Descriptions

*Listed by Presenter*

*~Session titles in green for Day 2.~*

## Mitch Dowhower

*Simple EdTech*

**Chrome Management for Schools (Workshop):** Join this workshop to learn tips and tricks admins are using to deploy and manage Google Chrome devices.

**Work Smarter, Not Harder: Chromebook Enrollment:** Learn inside industry secrets of white glove Google Chromebook enrollment. Save money and be more efficient.

**Google Admin 101:** This session is geared towards brand new or aspiring G-Suite Administrators. Learn tips and tricks to get you started down the right path.

---

## Chad Frerichs

*Simple EdTech*

**Build an Extension (Workshop):** This session will teach attendees how to create a custom extension for you district as well as adding on to Google apps.

**Google Workflows (Workshop):** 3 copy forms are a thing of the past. Google provides everything you need to keep them in the filing cabinet. Automate and expedite these workflows with Forms, Sheets, and Gmail. You will leave this workshop with a simple leave request workflow based on Google Forms, Sheets, and Gmail.

**Sheets 501:** Do you use spreadsheets? Do you want to use them more effectively? Come to this session to get some ninja tricks to make you a better spreadsheet user.

**Android on Chromebooks:** They're here! Android is on chrome and this session will show you what you need to know to distribute apps to your users.

---

**Karl Hehr**

*Simple EdTech*

**Everything you wanted to know about GAM but Were Afraid to Ask (Workshop):** GAM is an amazing command line tool that you can leverage as a GSuite admin. We will cover installation and updating GAM to basic and complex uses to make managing your domain less complex. This will be a hands on workshop so bring a device that you can run GAM on/from!

**Google for Education Security:** With everything in the cloud, how do you maintain security of your valuable student information? Pick up some tips and tricks to secure your domain and some steps to train staff to be good stewards of their Cloud data!

**What's New for Admins:** One of the great things about GSuite is that it is always changing. One of the bad things about GSuite is that it is always changing. We will cover some of the new additions to the Gsuite, how they impact your domain, what settings you may need to update and how to stay on top of new additions as they are released.

---

**Lance Lennon**

*Simple EdTech*

**Admin Console Best Practices (Workshop):** A workshop that consists of a comprehensive review of the Admin Console. This will include best practices for managing users, groups, and services. We will also look at third party tools which will make the domain administrator's life much easier while also offering better protection for your domain.

**Google Certification Options:** This session will discuss the different certification options for Google and benefits of the certifications. We will also discuss tips and tricks to getting certified.

**3rd Party Tool Options for Admins:** There are any number of third party tools on the market to assist admins in doing their job. Some are free, others are not. We will talk about some of these tools, what they do, what they cost and what is the ROI.

**Chromebook Management Tips and Tricks:** One hour is not enough time to cover all the tips and tricks of device management. We will highlight some of the options that will make your life easier. If you are looking for enrollment help, this is a good entry level session, complimented by Mitch Dowhower's Work Smarter, Not Harder session.

---

**Tim Lee**

*Amplified IT*

**Amplified Labs: Hands on – Clean up your domain for free! (Workshop):** In 2016, Andrew Stillman joined Amplified IT to build tools that extend G Suite to re-imagine how work gets done in schools. Since then we have brought together a great team to launch a number of tools ([labs.amplifiedit.com](http://labs.amplifiedit.com)). During this workshop, we will go hands on and utilize the tools for free to explore, report and resolve common issues within your G Suite domain. We will look into Group security setting, Chrome Device Management, Classroom adoption, User management and more. As part of this workshop, we will be offering admins 60 days free on all of our tools to ensure you can be ready for the upcoming school year.

**Leveraging Google Cloud Platform within K12 Schools:** Google Cloud Platform has been a major growth area and focus for Google over the last few years. While it has seen huge adoption in the business world, the K-12 EDU sector is just beginning to explore this vast portfolio. We will explore the various offerings in the platform, discuss use cases in K-12 schools and the next steps for your school to leverage Google's scalable infrastructure.

**GFE Admin Feedback:** During this roundtable session, we will explore common themes, feedback that GFE admins have provided Amplified IT and Google. To date, the major changes in the G Suite platform have been from the community at large. We will discuss the various methods of collecting feedback and explore a pilot concept launched to provide feedback directly to the Google PMs.

**Admin Console Q & A-Roundtable Session:** Get all of your Google Admin questions answered!

*Note: This session has been changed in the schedule from Data Studio Custom Data Dashboards*
