

I am really excited to announce that I will be launching a new enamel pin project in just a few days! This new project, Kitties Of Whiskerwood, comprise of a set of 10 mini pins showcasing what my kitties do everyday. The sizes of the pins measure around 0.6" - 0.9" big, and they are designed to be proportional to the shops from the Where The Kitties Are series! Meaning that they will look great when placed next to each other! Here is an overview of all the designs!

This project is one of the many Pintopia 2024 projects that are going to be launched on March 28th at 10am PDT (click [here](#) for more information about Pintopia from Backerkit). To participate in this special event, I collaborated with another designer, Amber & Moss, to create a freebie pin for all backers who pledge for any physical rewards from both Amber & Moss and my project. To be more precise, you will also receive another freebie pin from Amber & Moss' campaign! So there will be two freebie pins when you back both of our projects!

As a fan of ours, we want to ask for your commitment to pledge on day ONE so that we can have the strongest launch possible!

Can we count on your pledge?
