

Equity in Instruction: Using Inquiry to Engage ALL Students

K-5 | 6-12 | K-12

Teachers want to create classrooms where ALL students succeed, but students enter the classroom from such varying backgrounds that it can be a challenge. Inquiry learning can help! When students construct meaning through problem-solving, they are empowered to own their learning process. Discover how inquiry promotes equity through opportunities for creative and critical thinking, choice, collaboration, and discourse. Explore several inquiry learning activities and gain insight into creating a classroom environment that provides opportunities for all students to have equitable opportunities to learn. Receive personalized instruction in inquiry-based learning and leave with customized action plans to create curious classrooms where equity thrives!

Learning Objectives:

- Discover how inquiry can promote equity in your classroom.
- Learn a framework to transform any lesson into an inquiry learning experience.
- Promote equitable instruction by engaging ALL students actively, cognitively, and emotionally.
- Discover strategies to promote a classroom culture that supports equity as well as creative and critical thinking.
- Select and prepare a lesson where students learn by doing.
