Philosophy of time schedule: The idea is to mix it up a little. It's just a schedule and gives coaches/athletes a different approach to some 'typical' events. It may create a different strategy going into the April meet season. The priority was given to having the 200 meters run earlier in the day when the wind 'could' be lower and a better opportunity for some official marks.

The 3200 meters will also be moved to an early time for less wind, better temp and for ‘possible’ better race conditions. This early in April could provide many different types of weather conditions.

We will move ahead of schedule if possible. Please pay attention to the announcer.
