

1-Point Perspective

Create a drawing with the illusion of space using the 1-point perspective method

Materials:

- iPad or device to watch an instructional video
- Paper, pencil, ruler if working in a traditional format
- Drawing app of your choice if you would like to draw digitally

Directions:

1. Watch this [video](#) to learn how to create a 1-point perspective drawing of an interior room
 - a. If you would prefer to draw an outside scene or something else there are a TON of videos on YouTube about this subject-- just look up "how to draw 1-point perspective"
2. Create your drawing
3. Submit your drawing to Google Classroom
