2 email Subject: KNOW YOUR VALUE

Money is everywhere.

Everything around you has its own price.

Every business has a capital of ZERO in the beginning. Every man has a value of 0 when he appears in our world.

Coins had zero value. People traded cows for weapons, equipment for food, etc. In those days people didn't care about money. The main objective was not to die and to make people around them safe.

In our days, we are safe and living in comfort. And people now are spending half of their daytime working, precisely for those useless particles of lead and paper, that were considered unnecessary a long time ago. But in the present time, some guys are ready to die for these pieces of paper and numbers on the screen.

However, the most valuable thing didn't change from back in ages... The worth of time.

The amount of wasted time should be equal to the reward.

But I know for sure that you are not the kind of person who is ready to die for money.

Even if that's a 100k \$.

So, as our gratefulness, we sent you a book, with a large number of strategies and knowledge.

You have to read it before acting. There are really important steps

But knowledge itself will not make you wealthy

It requires action

And YOU are the only one who can take the lead!

Stay tuned!
