Traditional Sketches are for the lover of the traditional style ! A Traditional sketch is usually in the A5 (14,8 x 21 cm) format physically and scanned in the highest quality I can. The piece can be shipped to you with a shipping fee ranging from 2 euros to 10 euros depending where you live.

Keep in mind this style works better if your character has personality and is unique even without colors !

II. Digital Sketch

- Basic Price (1 character) : **70 €**
- Additional Character : **50 €**
- Simple Background : **15 €**
- Moderate Background : **30 €**
- Complex Background : **45 €**
- Simple Panel* (per panel) : **45 €**
- Complex Panel* (per panel) : **60 €**

[Examples here](#)

The Digital Sketches are for those who prefer digital art over the traditional texture ! Quicker to make, less mistakes, more precision and more !

Keep in mind this style works better if your character has personality and is unique even without colors ! Though, one color can be allowed, just like in the example !

III. Manga Style

- Basic Price (1 character) : **75 €**
- Additional Character : **55 €**
- Simple Background : **20 €**
- Moderate Background : **35 €**
- Complex Background : **45 €**
- Simple Panel* (per panel) : **30 €**
- Complex Panel* (per panel) : **45 €**

This is probably the best tier you can have. It's the most detailed, it has almost no cons, it's shaded, highlighted with ambiance and filters to maximize the look of it. It's one of my finest tiers. It's the one that looks the best too !

- Additional Character Per Sticker : **15 €**

VII. Digital Animation

- Basic Price (1 character + Complex or Simple Background) : **300 €**

Another experimental tier. This one is the BIGGEST tier, also the one the most expensive.

Why is it this expensive ? Because for this one I don't do it ALL, I actually have a team composed of me (the artist and the art director), the animator ([GamerooArts](#)), Voice Actors (not defined, but it's takes a lot of time to find them) and finally a sound / video editor (might be [TheNegiBear](#)). I need to have money for me but also to pay each member on the project too. Animation alone can cost more than 200 euros, VAs prices may vary a lot, so around 100 euros for 2 VAs, and then the video / sound editor that can ask for 50 euros or more.

What is it ? It's an animation loop of an Advanced Flats Commission (made purposefully to be easy to animate) that is dubbed and with sound effects.

At the end you will have multiple pieces in one :

- The still image, the base (an Advanced Flats Commission)
- The animation loop with sound effects and voices, edited, for a duration of one minute or a bit more. (in mp4 and webm)
- Same animation but with no sounds, silent vid. (in mp4 and webm)
- High quality gif
- Low quality gif

And you can ask for other types of files too, and I will discuss it with the animator or editor to see if it's possible.
