

Ghostarting`s commission info!

prices:

fullbody: \$80 (extra character: +\$60)

bust: \$55 (extra character: +\$35)

detailed backgrounds: +\$50

experimental comms:

base price: \$60

extra character: +\$30

Chibi comms:

Base price: \$20

Extra character: +\$15

All chibi comms come with a simple background and transparent file

Very big illustrations with backgrounds and rendering vary in price and may be anywhere between \$180-250 depending on complexity. These kinds of things will be discussed based on your idea and budget.

For large pieces, you may expect the turnaround to be 1-2 months.

I try my best to make my commission prices accessible for everyone with higher and lower budgets. If you dont know exactly what you want and have a specific budget, you can come to me and we can discuss something!

"Im interested in a commission and i have a budget of x amount. What can i get for that?" And i can show you examples of pieces that would be worth that amount and you decide what youd like!

accept paypal & ko-fi. if you can only pay through cashapp, it can be arranged and paid for through my partner, but its not preferred.

you must be 18+ to purchase a commission from me regardless if its nsfw or sfw!

i have a separate sheet for nsfw commissions that you can ask for if you`re curious!

- i take the full price upfront. i dont currently do payment plans unless the price is high enough to call for it (an example would be a piece that costs over 300)
- i dont do refunds as commissions helps me pay for important bills and groceries. ive never had issues with not being able to deliver a piece so even if the wait is slightly longer, your piece will always be delivered!

commissions can take anywhere between 2-3 weeks to 2 months. i will update you should it be more. i pride myself in having good communication skills

more examples can be found throughout my gallery on twitter & bluesky (ghoststarting) and on instagram(ghost.arting)! i recommend looking through it to get a good idea of what your commission may look like!

I can draw:

- furies/anthros
- humans/humanoids
- ferals & mlp
- fandom ocs & canon characters, even if im not familiar with the media. If im not familiar with the media, i might want you to tell me a bit extra information about the characters so i can do them justice!
- monsters and unique species
- gore and body horror (no tryphobia)
- characters of all ages
- most body types
- artistic nudity
- Kink gear
- selfship/yumeship/oc x canon
- vent commissions (no suicide)
- nsfw (ask for separate sheet & TOS)

specialties:

lgbt/trans/queer characters/couples, fat/plus sized characters, gore, horror/body horror, gothic/dark themes, kink gear, self/yumeship

things i will NOT draw:

scat, hyper (hyper fat, muscles and such) children/minors in nsfw contexts, bad ends/snuff/death, necrophilia, suicide

i do NOT charge extra
for mobility aid, canes, service
dogs, wheelchairs, etc!

im happy to draw new things and experiment with different topics and themes! if you have any questions at all about what i will and wont draw, just dm me!

- If you want your character drawn with a second character, but dont have one of your own, you can ask to have it drawn with one of my own! As long as theyre not any of my fursonas.

i expect payments to be made within 48 hours of ordering and you must let me know if it should be longer (example: "i can pay on monday"). if you ghost for longer than a week

before the payment is made, i will cancel your commission and you risk not working with me in the future.

I can do commissions privately! Just ask and your commission will not be posted. It does not cost extra to request to keep a commission private. You can also let me know if you want to be kept anonymous if I post your commission.

If you're able to communicate through telegram or discord, please hit me up there!

Discord: _metzgermeister_

Telegram: werevold

please be professional and only contact me through telegram or discord for serious commission inquiries. if you contact me just to mess around, you will be blocked! please state your intention upon first message (asking if my comms are open/saying youre interested in one or telling me you have a question of some kind)

for basic fullbodies/bust commissions, I will send you 2-4 sketches to choose from upon ordering!

you can be as detailed as you like with your request or give me artistic liberty! i can work with any amount of detail!

If you want me to complete more than one of the sketches i send, I can complete them for \$15 less than the original price. (example: a second fullbody would be \$65 instead of \$80)

The leftover sketches that don't get claimed, I may reuse for future comms, ychs or personal work.

for experimental commissions, i dont offer progress sketches at all due to the surprise aspect of these commissions specifically. you can keep up with where i am in the process on my trello. you can also always text me and ask for further details on my progress. if you really wish to see progress sketches, you`ll have to pay an extra fee of \$15

I currently consider commissions and art as a job and for that reason, i only work **Monday-Thursday** and take weekends off to do personal work/projects. please keep this in mind!

if you would like for a commission to be completed within a certain time/by a specific date, you may expect to pay an extra fee depending on the expected time. this can be discussed.

i struggle with a fair share of physical and mental issues that may slow down progress on occasion but i always do my best to communicate if something comes up! and dont be afraid to contact me as well!

commissions can take anywhere between 1-5 weeks. i will update you should it be more.

Other info!

- You are welcome to post your commission or use them as a banner or pfp as long as you credit me as Ghostarting somewhere on your profile!
- My art is 100% guaranteed AI free! None of my work is made with the help of any kind of AI Technology.
- The customer may NOT use the product in any blockchain-related technology such as for NFTs, cryptocurrency, or generative AI algorithms. If you support such things, i do not wish to work with you either
- I reserve the right to turn down a commission if i feel i cant deliver what you want. though this has yet to happen in my years of doing commissions
