## Invented

By Obscure\_2020

I got head piece that mind controls  
Lift you with gravity  
Earth partials  
Enter your body then you expoled

Science

Can belive my exsistance  
Mankind copy my scriptures  
20 years they follow teachings  
Walk around see all my pictures  
These everyday narctisst  
Stay close like enemies  
But they mind mess up for  
Trying to copy  
The average me can't take  
My  
technology  
Got the government  
Beliveing in aliens  
It's machines vs monkeys  
They had level out playing field  
Teaching them to push buttons  
But when I die the world desolve  
Into nothing

## Song about "Fuck The ICP"

Bitch-made since 6th grade, he need his rope cut  
Because the government just does'nt give a fuck  
Talking of the gods you serve  
Fuck the haterz, fuck the doubters  
Because the government just does'nt give a fuck  
Under pressure i don't sweat like my pores shut

I decided to fuck the chorus  
Maybe i'm on lust well you deserve love  
I swear i'm coming back one day  
What the fuck you gon say?  
We got money to go get baby  
What the fuck happened to me?  
Fuck the haterz, fuck the doubters  
That's why she ignore my flowers

~~

Hey, there you are!  
I know yo' missed me, but don't cry  
Hey, I letted you try!  
Congralutions, you killed her.  
Great murder, eh!  
Heh, don't mind it now,  
just advance and you're gonna kill everyone.  
~~

I'm so freakin' done of you kid,  
can't you only fight me!?  
Let's go, kill me already--  
wait, "mercy"?  
HAHA, you think i'm like those guys?  
I'm never let you got what you want.  
Kill me, or I'll kill you.  
Don't you remind,  
"kill or be killed"?

~( don't let peace invade your mind, kill kill kill everyone ) ~

~~~

HAHA, YO' IDIOT.

HOWDY, LITTLE GUY.

SO, NOW IMMA MONSTER.

WHAT ARE YOU GONNA DO?

YOU DON'T GOT THE POWER TO KILL ME, BECAUSE YOU DON'T KILLED ANYONE.

## SIPPINJUICEINYOHOOD

October, 16 2020 • Written by PsychoPuppet

I just sip juice till my dick loose like when Brain Busta first gets pubes  
I'm all juiced up to sip more, don't fuckin tell me the substance bein misused  
Since preschool I was puttin juice in a box, the lunch lady was with the shits too  
The cafeteria looked up to us stars more than Bhriugu practicin Hindu  
Sometimes I mixed juice with gin too, slipped a few passed this dude talkin bout it's "sinful"  
Says who? Juice is real food pretty much till it's covered in mildew, which I'd still chew  
But then I had an juice sippin experience led to childhood trauma  
I got a little horny, started suckin, choked on the straw and cried for my mama  
Juice can suck my dick I hope you evaporate and fuckin die in a sauna  
You better hope they find you a doctor, start slicin ya box up, time for the slaughter, bitch I'm  
gonna...holy shit I need to get a life

## Untitled Song

October, 16 2020 • Written by Vindicated

Aww you don't want me to curse?  
Well take the letters FFOKCUF and put it in reverse  
Snap my fingers like Thanos and watch em disperse

I don't know what you have against "bad words"  
But I don't need em to destroy another christian rapper  
Take a knife and slit the throat of the pastor  
Than watch him as he bleeds while rolling with laughter

You don't like violence?  
Too busy smelling the roses and violets  
but roses have thorns too...aww did I stun you to silence?

Satan is my God, no use for phonies

Burnin churches is what I do with my homies  
Cus you easily succumb to the darkness when you get to lonely  
When I die I got an appointment with Satan, me and him only

Boy  
Isn't  
The same when I  
Chain his family to the wall and set his  
House on fire

## Butter On A Pop Tart

October, 16 2020 • Written by GodQuagmire

Have you ever put butter on a Pop Tart?  
It's so frickin' good  
Have you ever put butter on a Pop Tart?  
If you haven't then I think you should

I was sittin' in the kitchen  
One day, and I was itchin'  
To fill up my belly  
With the pipin' hot jelly  
Of the best damn treat in the world

I'm talkin' Pop Tarts!

And I saw a stick of butter  
And it almost made me shudder  
And scream like a baby girl

I don't want a giant penis  
Or a rocket ship to Venus  
I don't want to win the lottery  
I just want to squat and gobble  
'Til I'm dizzy and I wobble  
In a butter, fruit and dough tart dream  
So I put butter on a Pop Tart  
It was so freakin' good  
Have you ever put butter on a Pop Tart?  
If you haven't then I think you should

## Soliloquy

May, 4 2015 • Written by Addix

I spit my words to a shrink,  
Asked him what do you think,  
What's it to bring the brink of extinction to your opinions meaningless,  
Like a virgin sliding on my penis,  
And riding til she hit the creamers,  
And thats if she survives the bleeding,  
So if I needed any bitches to give me scriptures of meaning,  
The triggers not far from my reaching,  
Martyr, I starve for the preaching,  
Connecting with stars when I'm teaching,  
Prophets speaking of prophecy for profits,  
But the gossip is faulted,  
Engulfed in a cage is your logic,  
How did you get into college?  
Out with you, stuck in this loop,  
Cause you're enraged so you don't give a poop,  
Tossing your chances down to the chute,  
Got your face bashed in and your eye's in a bruise,  
You snooze, you lose, so stand in the wake,  
Diurnal dreamer, so my path I create,  
Ignore the hate, everyone is scared of the greats,  
Bake your own cake, and let noone ever get a taste,  
I'm a chef til' death of me,  
Shake and Bake, you're just last to me  
Light a flame for catastrophies,  
You see my plate, don't ask for the recipe...

# Star Wars

January, 14 2014 • Written by [Thatsstrange](#)

Star Wars original was actually quite good  
But Disney gunna make it a babyhood,  
All this fluffin' around wid light sabers  
I'd just stab 'em in the face with some razors,  
No ones better than obiwan kenobi  
Everyone are wannabez and are gunna get a bit nose,

You're boring, dumb,  
half smart as Forrest Gump,  
teachers teach you but leave out the important stuff,  
when you bungee,  
they say leave the cord and jump.  
Diving boards in front,  
try to score a 1,  
100 feet drop,  
they're still screaming,  
"You're a cunt!"  
They guaranteed you you'd meet Luke Skywalker in the after life,  
In Corascant,  
You're a JEDI, right?  
Want a light saber in your ass, like, up your butt?  
What other reason  
would you have for meeting  
that daddy problem fuck.  
Maybe he can teach da Force,  
with his pelvic thrust.  
Jabba the hut can film it,  
then eat you both for lunch

# First Rap

March, 24 2016 • Written by [Wade](#)  
<https://www.rappad.co/rap/261277>

Call me Darth Vader, 'cause I find your lack of decent rhymes...disturbing  
After this lyrical beating, you'll be hurting.  
I spit this fire so hot, you'll still be burning.

I got a PhD in lyrical murdering.  
After this battle, all you'll be is a crisp,  
'Cause I throw more Force lightning than Darth Sidious.  
Wanna mess with me, I'll hunt you down like Vader did his kid  
Luke may have won, but I won't make the mistakes that DV did.  
He needed to use the more necessary Force,  
But I'll be like Anakin, using it brutally, of course.  
Obi Wan appears, saying "Use the Force, Luke."  
While I'm sitting here, more like "Shut up, or I'll puke."  
You've seen the new Star Wars? You're a bit like Kylo Ren,  
Just a disappointment, and a soon-to-fade trend.  
I'm the one with the rap gun, dealin' out all these shots,  
While you spit aimlessly, make a Stormtrooper look like a deadshot.

I've got my own version of Order 66  
Strikin' down all that stand before me with my lyrics.  
It isn't hard to tell that I won, it's not like physics,  
But I'm always getting better, I'm pushin' my limits.  
Honestly, you'd better step back, before you get hit,  
Get outta town, here, even got you a train ticket.  
Yeah, I'm insane, I'm downright twisted and wicked,  
When people hear my rhymes they're already addicted.

I'll kill you so quick just like the Death Eaters did Sirius,  
I'm like a sniper, 'cause when I shoot, I don't miss.  
I don't believe you, if you say you can beat this lyricist.  
Like an assassin, hiding in the shadows, mysterious.  
I spit rhymes so hot that people know that I'm serious,  
If you still wanna battle, man, you must be delirious.  
I'll pick you apart, find out all your weaknesses  
Make you look like a fool in front of the audiences  
I'm servin' up lyrical burns of justice,  
Call me MC Hammer, 'cause you can't touch this.
