Update on Katerina Estefania's Progress

Katerina is doing well, and her health has been stable over the last several months. She hasn't had any more seizures since that scare last year, and her health is better than ever. She graduated from school, and she's been in the process of looking for a job, so that she can help her mother financially. Meanwhile, she's been helping to keep the house clean and she cooks for her siblings. Her mother had surgery to have her appendix removed, as it was causing her a lot of pain. Everything went well, and she had to take a break from work to recuperate. The whole family is doing well, and they remain very grateful for your support. Thank you so much, and God bless you!
