

Song Sheet for Pesticides Action

1. Don't kill Bees -

(To the tune of Bye, Bye Love)

CHORUS

Don't kill bees,
Don't use glyphosate
Save our butterflies
There's a crisis going on
No no no no
REPEAT

VERSE 1

We ask the council please do not
spray
Our parks and gardens where
children play.
This toxic substance will cause us
harm
That's why we're sounding this
alarm.

No no no no

CHORUS x 2

VERSE 2

Our pollinators are under threat,
We owe our insects a massive
debt.
From flower to flower they buzz
around,
Making our crops grow and food
abound.

No no no no

CHORUS x 2

VERSE 3

So let's stop spraying, bring nature
back,
Let wildlife thrive and stop this
attack.
We really need them, when all is
said
Without our insects we'd all be
dead.

No no no no

CHORUS x 2

2. We plough the fields and spray them

(To the tune of We plough the fields
and scatter)

We plough the fields and spray
them
With Glyphosate each year
It kills the weeds and insects
And gets into our beer
The cancer grows inside us
The bees they fade and die
But farmers keep on spraying
They believe Monsanto's lie.

All good gifts around us
Are sprayed with Glyphosate
Please save the earth
Oh save the earth
From this awful fate

The Council sprays our
playgrounds
Our streets, our parks our lawn
The wild flowers are depleted
The worms become forlorn
We're in a mass extinction
Our hedgehogs are at risk
The Council keep on spraying
They really take the piss

All good gifts around us
Are sprayed with Glyphosate
Please save the earth
Oh save the earth
From this awful fate

3. Bees are buzzing

*Lyrics by Oliver Swinger and
Making Waves choir
(To tune of All Through the Night)*

Bees are buzzing , pollinating
All through the day
Feeding larvae, honey making
All through the day
But we make their lives confusing
Neonicotinoids using
They get ill, our crops we're losing
All through the day

Wild insects, pollen blending
All through the day
See that plants can grow unending
All through the day
Monoculture ploughs are slashing
It's their habitats we're slashing
And their numbers they are
crashing
All through the day.

Encourage wildlife, garden growing
All through the day
Stope the GM farmers sowing
All through the day
Help the bees to keep maturing
Harmful chemicals outlawing
Farms organic need restoring
All through the day

4. Sing for the Climate

(To the tune of 'Bella Ciao')

We need to wake up
We need to wise up
We need to open our eyes
And do it NOW, NOW, NOW!
We need to build a better future
And we need to start right now.

We're on a planet
That has a problem
We've got to solve it, get involved
And do it NOW, NOW, NOW!
We need to build a better future
And we need to start right now.

Make it greener.
Make it cleaner.
Make it last, make it fast
And do it NOW, NOW, NOW!
We need to build a better future
And we need to start right now.

No point in waiting
Or hesitating.
We must get wise, take no more lies
And do it NOW, NOW, NOW!
We need to build a better future
And we need to start right now!
