Sixth Form Updates

Dear Sixth Form Students and Parents,

I hope everyone had a **well-deserved extended weekend** and is feeling rested. **This week** in Sixth Form has been **short** but certainly **productive**.

Year 12 University Research

This week has been a great opportunity for our Year 12 students to delve deeper into university research and begin compiling lists of potential universities using BridgeU. Taking time now to explore various universities, entry requirements, and programme structures is an excellent way to make more informed decisions about the future. We encourage students to keep refining these lists and seek advice from tutors, teachers, and parents as they consider their options.

Talks from Immerse Education and Cardiff University

We were delighted to host a fascinating session by Immerse Education, emphasising the importance of learning transferable skills and becoming adaptable to succeed in future jobs that may not even exist yet. This forward-thinking approach helps our students appreciate the need to remain open-minded and proactive in building competencies for an ever-changing workforce.

Additionally, Dr. Savage from Cardiff University gave a thought-provoking talk on the impact of devices on our brains, highlighting how technology influences our cognitive functions and daily habits. Both talks provided invaluable insights into the future of work and the ways in which students can prepare themselves for emerging challenges and opportunities.

Guest Speaker from Sussex University

Earlier this week, we welcomed Professor Zahid Pranjol from Sussex University, who delivered an engaging talk titled "Biceps vs. Triceps: The Ultimate Muscle Showdown," along with insights into future careers in Chemistry and Biology. The session offered students a deeper understanding of human physiology and showcased the wide range of opportunities in the sciences.

Neurodiversity Celebration

This Friday was a wonderful celebration of neurodiversity, where all students were encouraged to wear a funky hat to raise awareness of the diverse ways in which our brains can work. Embracing these differences is essential to fostering an inclusive environment where every student's strengths and unique perspectives are valued.

Prom Payments – RM150 (Deadline: 25th April)

A reminder to parents and students that our Sixth Form Prom will be held at the end of the year, and the cost is RM150. Please make your prom payments at the school finance office by 25th April so we can begin finalising our planning and venue arrangements. Your prompt payment will help ensure a fantastic celebration for everyone.

Looking Ahead – Make the Most of Half Term

As we break for half term, I encourage all students to enjoy a well-earned rest but also keep up with their revision. This holiday is an ideal time to consolidate learning, review notes, and stay on top of study schedules. Balancing relaxation with productive revision will help you return refreshed and prepared for the challenges ahead.

If you have any questions or need additional support, please feel free to get in touch.

Best regards,

James Welburn, FRSB

Head of Sixth Form | King Henry VIII College
