

# ANNEXE 20

## STUDY PROGRAMME EQF, IQF, AND PLO RELATIONSHIP MATRIX

DOCTORAL PROGRAMME IN  
SOCIOLOGY (DSOC)

**Table 1: Study Programme EQF, IQF, and PLO Relationship Matrix**

| No | EQF Descriptor                                                                                                                                      | IQF/KKNI Descriptor                                                                                                                                                               | Full PLO                                                                                                                                                                             |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1  | EQF Level 8: Knowledge at the most advanced frontier of a field, capable of extending and redefining existing knowledge through original research.  | IQF/KKNI Level 9: Doctoral — Mastery and development of new knowledge through original research, ability to formulate, direct, and evaluate policies or strategies independently. | CPL-01: Able to design and conduct research using an agent-structure approach to gain an in-depth understanding of community dynamics and conflicts.                                 |
| 2  | EQF Level 8: Ability to apply theoretical frameworks to complex societal issues and formulate evidence-based interventions.                         | IQF/KKNI Level 9: Ability to formulate social policies grounded in theory and applied methodologies, evaluating their impact broadly.                                             | CPL-02: Able to formulate social policies based on sociological theory using applied sociological methods for conflict mitigation.                                                   |
| 3  | EQF Level 8: Leadership, autonomy, and responsibility in initiating and managing multidisciplinary research and projects.                           | IQF/KKNI Level 9: Demonstrates academic leadership and collaboration across disciplines in high-complexity contexts.                                                              | CPL-03: Possesses leadership and collaborative attitudes within a multidisciplinary team.                                                                                            |
| 4  | EQF Level 8: Ability to communicate complex research findings to scholarly and non-specialist audiences, including policymakers.                    | IQF/KKNI Level 9: Ability to produce scientific publications, policy reports, and advocacy outputs for implementation.                                                            | CPL-04: Able to communicate research findings and policy recommendations in the form of scientific publications, policy reports, or social advocacy that stakeholders can implement. |
| 5  | EQF Level 8: Ability to design advanced programmes and interventions addressing societal needs using state-of-the-art theoretical insight.          | IQF/KKNI Level 9: Able to design advocacy programmes responsive to community needs and grounded in research.                                                                      | CPL-05: Able to design advocacy programmes for the government based on public sociology that are responsive to the needs and aspirations of the community.                           |
| 6  | EQF Level 8: Mastery of advanced analytical tools and methods for rigorous research and policy formulation.                                         | IQF/KKNI Level 9: Mastery of advanced sociological analytical tools for research, policy design, and government advocacy.                                                         | CPL-06: Able to use sociological analysis tools in conducting research, designing policies, and government advocacy.                                                                 |
| 7  | EQF Level 8: Ability to develop integrative strategies addressing complex societal challenges through original theoretical and practical synthesis. | IQF/KKNI Level 9: Ability to design holistic and integrative conflict mitigation strategies grounded in rigorous research.                                                        | CPL-07: Able to design conflict mitigation strategies using a holistic and integrative sociological approach.                                                                        |
| 8  | EQF Level 8: Ethical conduct, professional integrity, and personal qualities necessary for responsible academic and social leadership.              | IQF/KKNI Level 9: Demonstrates ethical values, empathy, responsibility, and integrity across research and public advocacy contexts.                                               | CPL-08: Able to demonstrate patience, empathy, honesty, fairness, responsibility, and sincerity.                                                                                     |
