Description:

In 2025, Sisaket Rajabhat University generated a total of **0.50 tons of toxic waste**, consisting of electronic waste, laboratory chemicals, and other hazardous materials. This includes electronic waste (0.20 tons), laboratory chemicals (0.29 tons), and a small amount of other toxic waste (0.01 tons).

The university manages toxic waste through systematic collection and proper treatment in accordance with environmental and safety regulations. Electronic waste is disposed of through a specific procurement method in compliance with government regulations via the university's procurement unit. Meanwhile, laboratory chemicals are treated through specialized hazardous waste treatment processes to ensure neutralization and safe disposal.
