

Board Policy Adopted: 02/20/2024

Revised:

Approved by: LJA's Board of Directors

Section:

Laura Jeffrey Academy Lead Testing and Remediation Policy

I. FREQUENCY OF TESTING AND REMEDIATION:

Water at Laura Jeffrey Academy must be tested for lead at least once every five years by LJA's lessor.

- **POSITIVE TEST RESULT:** A school with a building that provides cooking or drinking water that finds lead (at or above five parts per billion in any water fixture) must:
 - immediately shut off the water until the hazard has been remedied as verified by a retest
 - implement a plan to ensure student exposure is reduced to below five parts per billion as verified by a retest
- **RETEST:** Schools must test for presence of lead **AFTER** completing remediation activities to confirm lead levels below five parts per billion

II. NOTICES

ANNUAL PARENT NOTICE: Laura Jeffrey Academy send parents an annual notice that includes:

- their annual testing and remediation plan
- information on how to find test results
- description of remediation information efforts on the district website

WEBSITE: Laura Jeffrey Academy will annually update the lead testing and remediation plan on the school website.

HANDBOOKS: Laura Jeffrey Academy will include in official school handbooks or school policy guides information on how parents may find the test results and a description of remediation efforts on the school website and how often this information is updated.

PARENT NOTIFICATION OF POSITIVE TEST: If a test reveals the presence of lead at or above five parts per billion Laura Jeffrey Academy will within 30 days of the test result remediate the presence of lead to below five parts per billion (verified by retest) OR directly notify parents of the test result.

III. REPORTING

REPORTING TO COMMISSIONER OF HEALTH: Starting July 1, 2024, schools must report test results and remediation activities to the commissioner of health by July 1st each year to be posted on the department website by school sites.
