THE WOODS

How Does Online Cannabis Ordering Work?

Online ordering helps customers review products before travelling to the store. The process generally includes browsing the current menu, choosing available products, adding them to the cart, submitting the required information, and selecting pickup.

Inventory can change, so customers should confirm that their order is ready before visiting. Valid government-issued identification is still required when collecting cannabis products.

What Cannabis Products Are Available?

The Woods Cannabis carries a broad range of legal product formats for different preferences and levels of experience. Inventory may change as products sell out or new items become available.

Cannabis Flower

Cannabis flower may be available in different strains, terpene profiles, package sizes, THC and CBD levels, and brand tiers. Customers can compare affordable products with premium flower supplied by licensed producers.

Premium flower may differ based on cultivation methods, genetics, aroma, terpene content, and brand reputation. A premium label does not guarantee the same experience for every customer.

Cannabis Pre-Rolls

Pre-rolls provide a convenient alternative to preparing loose flower. Available products may include single pre-rolls, multi-packs, infused varieties, standard options, and premium prerolls.

Cannabis Edibles

Cannabis edibles may include gummies, chocolates, chews, and other ingestible products. Legal products display regulated cannabinoid information and package guidance.

Edibles can take longer to produce noticeable effects than inhaled cannabis. Customers should follow the product label and wait before consuming an additional serving.

THE WOODS

Cannabis Concentrates

Concentrates and extracts may contain higher cannabinoid levels than standard flower. These products are generally intended for experienced consumers familiar with careful handling and responsible use.

Cannabis Vape Products

Vape products may include cartridges, disposable devices, and compatible hardware. Customers should confirm device compatibility and follow manufacturer instructions.

CBD Products

CBD-focused products may include oils, capsules, edibles, beverages, flower, and other formats. Customers should review the THC and CBD information on each product before purchasing.

Cannabis Accessories

Accessories may include grinders, rolling papers, storage products, cleaning supplies, and other items intended for legal adult cannabis use.
